**Replacing Your Boat's Engine** - Mike Westin  
2012-11-30

The first in a series of highly practical, hands on, step-by-step photographic manuals, *Replacing Your Boat's Engine* fills a gap in the market for the DIY boat builder and repairer. It is a subject

covered only in piecemeal fashion by the yachting press, which, like general boat repair manuals, can't go into the level of detail Mike Westin does. This is a visual, hand-holding guide, dwelling on the practical details of replacing a boat's engine and related systems as it explains each procedure rather than focussing on the theory (which is relegated to an appendix, for those who wish to go further). Anyone who wishes to upgrade their boat's engine or replace an ailing or broken engine will find this step-by-step illustrated book a hand-holding godsend.

*Food, Energy, and Water* - Satinder Ahuja  
2015-01-25

How will chemists of the future balance competing concerns of environmental stewardship and innovative, cost-effective product development? For chemists to accept the idea that environmental quality and economic prosperity can be intertwined, the concept of the food-energy-water nexus must first be integrated into underlying thought

processes. Food, Energy and Water: The Chemistry Connection provides today's scientists with the background information necessary to fully understand the inextricable link between food, energy and water and how this conceptual framework should form the basis for all contemporary research and development in chemistry in particular, and the sciences in general. Presents a clear, quantitative explanation of the link between food, energy, and water Provides information not currently available in chemistry curricula or synthesized in existing resources Examines the challenges of the food-energy-water nexus from a chemistry perspective within a multi-disciplinary domain Includes the latest research on critical topics such as fracking, water use conflicts, and sustainability in food production cycles

### **Green Boating** - Misse Wester 2009

The coastal and archipelago areas in the Baltic Sea are popular destinations for a number of tourists. An important group of tourists is boaters, who visit the coastal areas during a short summer period. Boat owners are sometimes pictured as having a great interest for the nature and a willingness to do right. Pollution from pleasure boats such as discharges of oil and fuel, antifouling paints and cleaning agents have a negative impact on the coastal environment. Environmentally sound alternatives exist to some extent, but are not very common. Sustainable alternatives for boaters are lacking behind. One of the underlying purposes of this study was to understand how we can help boat owners change their behaviour and decrease the negative impact on the marine environment. The survey among boaters has been conducted in Finland, Sweden and Denmark with a web based survey ordered by the Keep Sweden Tidy

Foundation together with Keep the Archipelago Tidy Association in Finland and the Danish Outdoor Council. The research was performed by SIFO Research International.

Uebel unterwegs - Tina Uebel 2016-03-11

Wenn einer eine Reise tut, dann kann er viel erzählen. Wenn nun aber dieser Eine eine Eine ist, dazu noch reflektieren kann, verrückte Ideen hat und alles daransetzt, sie auch umzusetzen ... und wenn diese Eine darüber hinaus auch noch schreiben kann, witzig gar, unterhaltsam, manchmal (wo es Not tut) auch nachdenklich (und das tut es ab und zu), dann kann man sich als Leser nur überaus glücklich schätzen. Im

vorliegenden Fall heißt das: Wenn Tina Uebel, bekannte Wortakrobatin, Illustratorin, Grafikerin, und Schriftstellerin ("Last Exit Volksdorf""Nordwestpassage für dreizehn Arglose und einen Joghurt") auf Reisen geht, um einen Stipendiumspreis in Shanghai anzunehmen und dabei nicht fliegt und auch nicht die Transsibirische Eisenbahn benutzt, sondern sich eine eigene Route zusammenstellt, dann gibt es wahrlich viel zu erzählen. Deutschland - Serbien - Bulgarien - Türkei - Iran - Turkmenistan - Usbekistan - Kasachstan - China. 7 Wochen lang ist Tina Uebel unterwegs von Hamburg nach Shanghai - und das allein mit öffentlichen Verkehrsmitteln. Uebel erzählt von ihren Begegnungen in den Zügen dieser Welt, von ihren ganz persönlichen Begegnungen mit den fremden Kulturen der verschiedenen Länder, die sie passiert. Sie reflektiert, sinniert, hinterfragt - immer wortgewandt, charmant und mit einer Prise Humor, sodass nicht wenige ihrer Erlebnisse auf eine gewisse Weise herrlich

verrückt erscheinen. "Uebel unterwegs" ist damit eines dieser Bücher, das jeder einmal gelesen haben sollte. Oder zumindest jeder, der gerne reist. Also eigentlich doch: jeder.

*Atlantikfieber* - Jan Heinze 2016-03-16  
Ein junger Familienvater und gestandener Unternehmer. Wochenlang allein auf See. Aber glücklich. Auf den Spuren berühmter Segler wie Moitessier, Slocum und Knox-Johnston wagt sich Jan Heinze an eine der härtesten Hochseeregatten der Welt: Die "Mini-Transat". Sein Boot ist gerade mal 6,50 Meter lang, dafür aber 3 Meter breit - eine bessere Jolle, möchte man meinen. Wenn da nicht die gigantische Segelfläche von 115 (!) Quadratmetern vorm Wind wäre. Genau richtig für die "Mini-Transat", bei der alle 2 Jahre 84 Skipper, unter ihnen die Besten der Welt, auf kleinsten High-Tech-Yachten eine 4.000 Seemeilen lange Regatta quer über den Atlantik veranstalten. Für

Profisegler, oder solche, die es werden wollen, ist die "Mini-Transat" beinahe eine Pflichtveranstaltung. Was aber treibt einen Amateur, sich den Strapazen der Vorauswahl und des Rennens auszusetzen? Dies alles und noch viel mehr beschreibt Jan Heinze in diesem Buch - mal atemlos kurz, mal poetisch und gedankenvoll: Die sportliche Herausforderung und die Liebe zur See, Freude an Geschwindigkeit sowie die Ambivalenz zwischen Einsamkeit und Kameradschaft. Jan Heinze erzählt derart packend, dass gerade auch Nicht-Regattasegler unglaublich gut unterhalten werden. Lesend fiebert man mit ihm, ob seine Qualifikation gelingt, freut sich an berauschten Surfs und begleitet ihn auf Regattakursen, ist Zeuge von Erfolgen und Niederlagen, von Genuss und angstvollen Momenten; kurz: Von all dem, was auch der "Normalsegler" auf dem Urlaubstörn erlebt - nur komprimierter, härter, spannender.
