Reinventing yourself - Mario Alonso Puig 2020-11-30
At the oracle in Delphos, at the entrance to Apollo's temple in ancient Greece, there was a stone which had some strange signs written on it. It was an invitation to begin one of the most fascinating adventures

that a human being can undertake. In other words, the adventure of self-discovery. This book is a map which will accompany us on this trip inside ourselves. Little by little the secret of how people create the eyes through which we observe and perceive the

world, will be revealed. It is with the same eyes that so often make us focus on our guilt about the past rather than on future opportunities. Reinventing yourself does not mean becoming someone different from how we really are but rather bring our REAL SELF to the surface. It is in this new area of possibilities where creativity flows, along with the wisdom and energy to completely transform our experience, bringing with it more calm, desire and confidence into our lives. The key lies within ourselves, in the exercising of our personal freedom, taking choices that slowly but surely lead us to transform our outlook. Marcel Proust said that, "the real act of discovery does not consist in going out to look for a new land but in learning to see the old land with new eyes." It is with our new eyes that we will be able to see what before we were blind to. It is also these new eyes which will lead us to discover how to reach what before had seemed unattainable.

Under a Pole Star - Stef Penney
2017-09-05

Sometimes you have to travel to the farthest edge of the world in order to find your true place in it... A panoramic historical epic and an unforgettable love story from the author of *The Tenderness of Wolves*, for fans of Kristin Hannah, Sarah Perry, and Barbara Kingsolver. A whaler's daughter, Flora Mackie first crossed the Arctic Circle at the age of twelve. Years later, in 1892, determination and chance lead her back to northern Greenland as a scientist at the head of a British expedition, defying the expectations of those who

believe a woman has no place in that harsh world. Geologist Jakob de Beyn was raised in Manhattan. Yearning for wider horizons, he joins a rival expedition. Jakob and Flora's paths cross. It is a fateful meeting, where passion and ambition collide and an irresistible attraction is born. The violent extremes of the north obsess them both: perpetual night and endless day; frozen seas and coastal meadows, and the strange, maddening pull it exerts on the people trying to make their mark on its vast expanses - a pursuit of glory whose outcome will reverberate for years to come.

Liquid Love - Zygmunt Bauman

2013-05-03

This book is about the central figure of our contemporary, 'liquid modern' times - the man or woman with no bonds, and particularly with none of the fixed or durable bonds that would allow the effort of self-definition and self-assertion to come to a rest. Having no permanent bonds, the denizen of our liquid modern society must tie whatever bonds they can to engage with others, using their own wits, skill and dedication. But none of these bonds are guaranteed to last. Moreover, they must be tied loosely so that they can be untied again, quickly and as effortlessly as possible, when circumstances change - as they surely will in our liquid modern society, over and over again. The uncanny frailty of human bonds, the feeling of insecurity that frailty inspires, and the conflicting desires to tighten the bonds yet keep them loose, are the principal themes of this important new book by Zygmunt Bauman, one of the most original and influential social thinkers of our time. It

will be of great interest to students and scholars in sociology and in the social sciences and humanities generally, and it will appeal to anyone interested in the changing nature of human relationships.

The Voice of Knowledge -

Don Miguel Ruiz 2010-02-01

In The Voice of Knowledge, Miguel Ruiz reminds us of a profound and simple truth: The only way to end our emotional suffering and restore our joy in living is to stop believing in lies — mainly about ourselves.

Based on ancient Toltec wisdom, this breakthrough book shows us how to recover our faith in the truth and return to our own common sense. Ruiz changes the way we perceive ourselves, and the way we perceive other people. Then he opens the door to a reality that we once perceived when we were one and two years old — a reality of truth, love, and joy. “We are born in truth, but we grow up believing in lies. . . . One of the biggest lies in the story of humanity is the lie of our imperfection.” — don Miguel Ruiz • From the international bestselling author of The Four Agreements • A New York Times bestseller • Over 300,000 copies sold in the

El Poder del Pensamiento Flexible: de Una Mente Rígida, a Una Mente Libre y Abierta Al Cambio - Walter Riso 2016-09-01

A rigid mind is that which grasps the dogmas and irrational beliefs, that is not willing to change its opinion nor is able to look for distinct solutions to its problems. For Walter Riso, this rigidity not only favors intolerance, prejudice and discrimination, but it also produces twisted psychology in people. On the opposite side of this is the

liquid mind, which accepts everything in a passive manner, your own opinions fall by the wayside, accommodating any situation, even though it goes against your interests. Facing these two attitudes, the author proposes a third alternative; the flexible mind, which allows you to live a more creative, healthier and happier life. It is a critical and open reason that recognizes change and is capable of adapting without renouncing your nature.

most valuable resources, one that we find every day is more and more regulated and discredited. We are referring to biological emotion. In the expert opinion of the therapist Walter Riso, rational intelligence is one of the greatest adaptive tools that humans can count on, and thanks to that, he has been able to survive. Nonetheless, this does not guarantee equilibrium, internal harmony or the physical or psychological health of people. It is necessary to complement this part of one's self with the innate power and wisdom that inhabits our emotions. This book shows us how to integrate these components in a constructive manner and to take advantage of them for our benefit. "Wanting to bury your emotions is not only an impossible task, but it is dangerous for your health... we should let our emotions act with us and through us."

How to Improve Your Self-Esteem - Walter Riso

2013-06-01

"Activating your self-love is the

first step towards any type of psychological growth and personal improvement. Of course I am not talking about the dark side of self-esteem, which leads to narcissism and fascination with the ego, but rather about having a genuine ability to, fearless and unashamedly, recognize your strengths and virtues, integrate them into the development of your own life..." In this guide, Dr. Walter Riso teaches us about the tools we need to help bolster our self-esteem; he teaches us to feed our self-love, freeing us from dependencies and stripping away all those things that weigh heavily on us. This, in turn, enables us to build our own happiness.

The Art of Living - William Hart 1991

The Art of Life - Zygmunt Bauman 2013-05-20

In our individualized society we are all artists of life - whether we know it or not, will it or not and like it or not, by decree of society if not by our own choice. In this society we are all expected, rightly or

Downloaded from
vitaenet.aurora.edu on by
guest

wrongly, to give our lives purpose and form by using our own skills and resources, even if we lack the tools and materials with which artists' studios need to be equipped for the artist's work to be conceived and executed. And we are praised or censured for the results - for what we have managed or failed to accomplish and for what we have achieved and lost. In our liquid modern society we are also taught to believe that the purpose of the art of life should be and can be happiness - though it's not clear what happiness is, the images of a happy state keep changing and the state of happiness remains most of the time something yet-to-be-reached. This new book by Zygmunt Bauman - one of the most original and influential social thinkers writing today - is not a book of designs for the art of life nor a 'how to' book: the construction of a design for life and the way it is pursued is and cannot but be an individual responsibility and individual accomplishment. It is instead a brilliant account

of conditions under which our designs-for-life are chosen, of the constraints that might be imposed on their choice and of the interplay of design, accident and character that shape their implementation. Last but not least, it is a study of the ways in which our society - the liquid modern, individualized society of consumers - influences (but does not determine) the way we construct and narrate our life trajectories.

In it, Walter Riso teaches us, in a practical manner and without

Permission to Feel - Marc Brackett, Ph.D. 2020-08-04

The mental well-being of children and adults is shockingly poor. Marc Brackett, author of *Permission to Feel*, knows why. And he knows what we can do. "We have a crisis on our hands, and its victims are our children." Marc Brackett is a professor in Yale University's Child Study Center and founding director of the Yale Center for Emotional Intelligence. In his 25 years as an emotion scientist, he has developed a remarkably effective plan to improve the lives of children and adults - a blueprint for understanding our emotions and using them wisely so that they help, rather

than hinder, our success and well-being. The core of his approach is a legacy from his childhood, from an astute uncle who gave him permission to feel. He was the first adult who managed to see Marc, listen to him, and recognize the suffering, bullying, and abuse he'd endured. And that was the beginning of Marc's awareness that what he was going through was temporary. He wasn't alone, he wasn't stuck on a timeline, and he wasn't "wrong" to feel scared, isolated, and angry. Now, best of all, he could do something about it. In the decades since, Marc has led large research teams and raised tens of millions of dollars to investigate the roots of emotional well-being. His prescription for healthy children (and their parents, teachers, and schools) is a system called RULER, a high-impact and fast-effect approach to understanding and mastering emotions that has already transformed the thousands of schools that have adopted it. RULER has been

proven to reduce stress and burnout, improve school climate, and enhance academic achievement. This book is the culmination of Marc's development of RULER and his way to share the strategies and skills with readers around the world. It is tested, and it works. This book combines rigor, science, passion and inspiration in equal parts. Too many children and adults are suffering; they are ashamed of their feelings and emotionally unskilled, but they don't have to be. Marc Brackett's life mission is to reverse this course, and this book can show you how.
