## **On the Trail of the Indo-Europeans: From Neolithic Steppe Nomads to Early Civilisations** - Harald Haarmann 2021-01-26

For more than 3000 years, Indo-European languages have been spoken from India through Persia and into Europe. Where are the origins of this language family? How and when did its different linguistic branches emerge? The renowned historical linguist Harald Haarmann provides a graphic account of what we know today about the origins of Indo-European languages and cultures and how they came to be so widely disseminated. In this impressive study, he succeeds in drawing connections between linguistic findings, archaeological discoveries and the latest research into human genetics and climate history. In addition to linguistic affinities, he shows the economic, social and religious concepts that the early speakers of Indo-European languages had in common all the way from the Eastern Mediterranean to the Indus. Particular attention is devoted to the processes of assimilation with pre-Indo-European languages and civilisations. The result is a fascinating panorama of early "Indo-European globalisation" from the end of the last ice age to the early civilisations in Greece, Italy, Asia Minor, Persia and India.

*Understanding Animals* - Lars Svendsen 2019-09-15

How do animals perceive the world? What does it really feel like to be a cat or a dog? In *Understanding Animals*, Lars Svendsen investigates how

humans can attempt to understand the lives of other animals. The book delves into animal communication, intelligence, self-awareness, loneliness, and grief, but most fundamentally how humans and animals can cohabit and build a form of friendship. Svendsen provides examples from many different animal species—from chimpanzees to octopus—but his main focus is on cats and dogs: the animals that many of us are closest to in our daily lives. Drawing upon both philosophical analysis and the latest scientific discoveries, Svendsen argues that the knowledge we glean from our relationships with our pets is as valid and insightful as any scientific study of human-animal relations. With this entertaining and thought-provoking book, animal lovers and pet owners will gain a deeper understanding of what it is like to be an animal—and in turn, a human.

*The Jewish Book of Why* - Alfred J. Kolatch 2011-09-13

*Conversations with Trotsky* - Bruce Nesbitt 2017-05-09

This collection presents all of Earle Birney's known published and

unpublished writings on Trotsky and Trotskyism for the very first time. It includes their correspondence as well as a selection of Birney's letters and literary writings. Before he became one of Canada's most influential and popular twentieth century poets, Earle Birney lived a double life. To his students and colleagues, he was an engaging university lecturer and scholar. But for seven years—from 1933 to 1940—the great Russian revolutionary Leon Trotsky was the focus of his writing and much of his life. During his years as a Trotskyist in Canada, the United States and England, Birney wrote extensively about Trotsky, corresponded with him, organized Trotskyist cells in two countries, and recruited on behalf of Trotskyism; he also lectured on Trotsky and interviewed him over the course of several days. One of his two novels is based on some of these activities. The collection traces the origins of Trotsky's mistrust of "the British" to his experiences in Canada; shows Birney's influence on a major shift in Trotsky's policy of "entrism" in British politics; includes the largest body of Trotskyist criticism in Canadian literary history; and demonstrates the need for a radical re-reading of Birney's poetry in light of his Trotskyism.

**Class in Archaic Greece** - Peter W. Rose 2012-01-28

Archaic Greece saw a number of decisive changes, including the emergence of the polis, the foundation of Greek settlements throughout the Mediterranean and Black Sea, the organisation of panhellenic games and festivals, the rise of tyranny, the invention of literacy, the composition of the Homeric epics and the emergence of lyric poetry, the development of monumental architecture and large scale sculpture, and the establishment of 'democracy'. This book argues that the best way of understanding them is the application of an eclectic Marxist model of class struggle, a struggle not only over control of agricultural land but also over cultural ideals and ideology. A substantial theoretical introduction lays out the underlying assumptions in relation to alternative models. Material and textual remains of the period are examined in depth for clues to their ideological import, while later sources and a wide range of modern scholarship are evaluated for their explanatory power.

**Nina X** - Ewan Morrison 2019-04-04

Winner of the Saltire Literary Award Fiction Book of the Year 'Literary gold . . . Morrison has published his masterpiece' Sunday Times 'Sensational. Like nothing I've ever read. A tour de force' Ian Rankin Nina X has never been outside. She has never met another child. Nina X has no books, no toys and no privacy. Nina X has no idea what the outside world is like. Nina X has a lot to learn. Nina X has no mother and no father; she has Comrade Chen, and Comrades Uma, Jeni and Ruth. Her closest emotional connection is with the birds she sees when she removes the plasterboard that covers her bedroom window. Comrade Chen has named her The Project; she is being raised entirely separated from the false gods of capitalism and the cult of the self. He has her record everything in her journal, to track her thoughts. To keep her ideology pure, her words are erased, over and over again. But that was before. Now Nina is in Freedom, and all the rules have changed. She has to remember that everything is opposite to what she was told, and yet Freedom seems to be a very confusing and dangerous place 'This moving tale of growing up in a Maoist cult, and the traumatic aftermath, explores ideas of freedom, control and identity with warmth and humour' Alex Preston, Observer 'Amazing . . . There are few writers left in Britain who have his ambition, vision and empathy. Nina is marvellous creation and this is an important novel' Irvine Welsh 'Compelling. Chilling' Lionel Shriver

The Mystery of the Danube Civilisation - Harald Haarmann 2020-05-29  
Over the last few decades, archaeologists and cultural scientists have come to a better understanding of the extent of Neolithic civilisation on the Balkan peninsula. This Danube Civilisation, thriving between the 6th and 4th millennia BCE, was using a writing system long before the Mesopotamians and is remarkable for its accomplishments in craftsmanship, art and urban development. In this book, Harald Haarmann provides the first comprehensive insight into this enigmatic Old European culture, which is still largely unknown to the greater public. He describes the trade routes, settlements, mythology and writing system of this people, traces the changes resulting from the arrival of the Indo-Europeans, and shows how this first advanced civilisation in Europe influenced its successors.

The much-anticipated republication of Ann Quin's masterpiece of post-war British fiction: caustic, thrilling, unforgettable.

**The World of the Fullo** - Miko Flohr 2013-05-30

The World of the 'Fullo' takes a detailed look at the fullers, craftsmen who dealt with high-quality garments, of Roman Italy. Analyzing the social and economic worlds in which the fullers lived and worked, it tells the story of their economic circumstances, the way they organized their workshops, the places where they worked in the city, and their everyday lives on the shop floor and beyond. Through focusing on the lower segments of society, Flohr uses everyday work as the major organizing principle of the narrative: the volume discusses the decisions taken by those responsible for the organization of work, and how these decisions subsequently had an impact on the social lives of people carrying out the work. It emphasizes how socio-economic differences between cities resulted in fundamentally different working lives for many of their people, and that not only were economic activities shaped by Roman society, they in turn played a key role in shaping it. Using an in-depth and qualitative analysis of material remains related to economic activities, with a combined study of epigraphic and literary records, this volume portrays an insightful view of the socio-economic history of urban communities in the Roman world.

The Vet's Daughter - Barbara Comyns 2003-04-30

The Vet's Daughter combines shocking realism with a visionary edge. The vet lives with his bedridden wife and shy daughter Alice in a sinister London suburb. He works constantly, captive to a strange private fury, and treats his family with brutality and contempt. After his wife's death, the vet takes up with a crass, needling woman who tries to refashion Alice in her own image. And yet as Alice retreats ever deeper into a dream world, she discovers an extraordinary secret power of her own. Harrowing and haunting, like an unexpected cross between Flannery O'Connor and Stephen King, The Vet's Daughter is a story of outraged innocence that culminates in a scene of appalling triumph.

Processing the Past - Francis X. Blouin Jr. 2012-12-18

Processing the Past explores the dramatic changes taking place in historical understanding and archival management, and hence the relations between historians and archivists. Written by an archivist and a historian, it shows how these changes have been brought on by new

historical thinking, new conceptions of archives, changing notions of historical authority, modifications in archival practices, and new information technologies. The book takes an "archival turn" by situating archives as subjects rather than places of study, and examining the increasingly problematic relationships between historical and archival work. By showing how nineteenth- and early twentieth-century historians and archivists in Europe and North America came to occupy the same conceptual and methodological space, the book sets the background to these changes. In the past, authoritative history was based on authoritative archives and mutual understandings of scientific research. These connections changed as historians began to ask questions not easily answered by traditional documentation, and archivists began to confront an unmanageable increase in the amount of material they processed and the challenges of new electronic technologies. The authors contend that historians and archivists have divided into two entirely separate professions with distinct conceptual frameworks, training, and purposes, as well as different understandings of the authorities that govern their work. Processing the Past moves toward bridging this divide by speaking in one voice to these very different audiences. Blouin and Rosenberg conclude by raising the worrisome question of what future historical archives might be like if historical scholars and archivists no longer understand each other, and indeed, whether their now different notions of what is archival and historical will ever again be joined.

Karlik - Ursula Burkhard 2017-08-17

Elemental beings such as gnomes and fairies exist in many folk and spiritual traditions, and Rudolf Steiner also discussed their significance to our world. Some people are able to engage and even communicate with elementals. Ursula Burkhard was one such person. Blind from birth, she experienced gnomes and other elementals from early childhood. When, as she grew older, her parents tried to dissuade her, she was puzzled: why should she believe in the 'real' things she was unable to see, and ignore what she knew to be true? In this short book, she describes her remarkable experiences and in particular her relationship

with a special gnome, Karlik. The book was a bestseller in Germany in the 1980s, bringing the world of the elementals into the mainstream.

*Novel on Yellow Paper* - Stevie Smith 1980

Stevie's alter ego Pompey is young, in love and working as a secretary for the magnificent Sir Phoebus Ullwater. In between making coffee and typing letters for Sir Phoebus, Pompey scribbles down - on yellow office paper - her quirky thoughts. Her flights of imagination take in Euripedes, sex education, Nazi Germany and the Catholic Church, shattering conventions in their wake.

Living the Revolution - Andy Willimott 2017

This work provides a pioneering insight into the world of the early Soviet activist in the wake of the October Revolution, exploring how young radicals banded together in 'urban communes'; at first an experimental lifestyle choice for a handful of young socialists, but growing into a cultural phenomenon espoused by tens of thousands of youths by the end of the 1920s.

**Die Inka** - Dr. Ulrike Peters 2018-08-26

Von der Kultur der Inka geht nach wie vor eine große Faszination aus. Ganz und gar nicht zu Unrecht, denn die Kultur der Inka würde heute nicht nur mit einem, sondern gleich mit mehreren Superlativen ins "Guinness-Buch der Rekorde" eingehen: das größte Reich, die größte Armee, das größte Straßennetz und der größte Goldschatz des Alten Amerika. In knapp hundert Jahren (1438-1534 n. Chr.) hatten die Inka ein Imperium errichtet, das sich auf einer Länge von fast 5000 km von Kolumbien bis nach Chile erstreckte. Auf den vorangehenden Kulturen wie Chavín, Moche oder Tiahuanaco aufbauend, übertrafen die Inka diese in vielerlei Hinsicht. Die Inka-Herrscher verstanden sich, ähnlich

wie die Pharaonen des Alten Ägypten, als Söhne des Sonnengottes. Sie führten einen aufwendigen Hofstaat und ihr Reichtum war legendär. Der vorliegende Band stellt die Geschichte und Kultur der Inka sowie die Eroberung des Inka-Reiches durch die Spanier dar und geht auch auf die Kulturen vor der Inka-Zeit ein und auf das, was von den Inka blieb. So ist das Quechua, die Sprache der Inka, bis heute die Amtssprache in Peru, Bolivien und Ecuador und nicht das einzige Erbe der Inka.

The Vocation of Man - Johann Gottlieb Fichte 1910

"Whatever in the more recent Philosophy is useful beyond the limits of the schools will form the contents of this work, set forth in that order in which it would naturally present itself to unscientific thought. The more profound arguments by which subtle objections and extravagances of over-refined minds are to be met, whatever is but the foundation of other Positive Science, --and lastly, whatever belongs to Pedagogy in its widest sense, that is, to the deliberate and arbitrary Education of the Human Race, --shall remain beyond the limits of our task. These objections are not made by the natural understanding;--Positive Science it leaves to Scholars by profession; and the Education of the Human Race, in so far as that depends upon human effort, to its appointed Teachers and Statesmen. This book is therefore not intended for philosophers by profession, who will find nothing in it that has not been already set forth in other writings of the same author. It ought to be intelligible to all readers who are able to understand a book at all. To those who wish only to repeat, in somewhat varied order, certain phrases which they have already learned by rote, and who mistake this business of the memory for understanding, it will doubtless be found unintelligible"--Preface.

A Philosophy of Loneliness - Lars Svendsen 2017-03-15

For many of us it is the ultimate fear: to die alone. Loneliness is a difficult subject to address because it has such negative connotations in our intensely social world. But the truth is that wherever there are people, there is loneliness. You can be lonely sitting in the quiet of your home, in the still of an afternoon park, or even when surrounded by throngs of people on a busy street. One need only turn on the radio to hear a crooner telling us just how lonesome we can be. In this

groundbreaking book, philosopher Lars Svendsen confronts loneliness head on, investigating both the negative and positive sides of this most human of emotions. Drawing on the latest research in philosophy, psychology, and the social sciences, *A Philosophy of Loneliness* explores the different kinds of loneliness and examines the psychological and social characteristics that dispose people to them. Svendsen looks at the importance of friendship and love, and he examines how loneliness can impact our quality of life and affect our physical and mental health. In a provocative move, he also argues that the main problem in our modern society is not that we have too much loneliness but rather too little solitude, and he looks to those moments when our loneliness can actually tell us profound things about ourselves and our place in the world. The result is a fascinating book about a complex and deeply meaningful part of our very being.

**The Complete Maisky Diaries** - Ivan Mikhaïlovich Maïskiï 2017-01-01

*Memory and History* - Joan Tumblety 2013-07-15

How does the historian approach memory and how do historians use different sources to analyze how history and memory interact and impact on each other? *Memory and History* explores the different aspects of the study of this field. Taking examples from Europe, Australia, the USA and Japan and treating periods beyond living memory as well as the recent past, the volume highlights the contours of the current vogue for memory among historians while demonstrating the diversity and imagination of the field. Each chapter looks at a set of key historical and historiographical questions through research-based case studies: How does engaging with memory as either source or subject help to illuminate the past? What are the theoretical, ethical and/or methodological challenges that are encountered by historians engaging with memory in this way, and how might they be managed? How can the reading of a particular set of sources illuminate both of these questions? The chapters cover a diverse range of approaches and subjects including oral history, memorialization and commemoration, visual cultures and photography, autobiographical fiction, material culture, ethnic relations, the individual

and collective memories of war veterans. The chapters collectively address a wide range of primary source material beyond oral testimony – photography, monuments, memoir and autobiographical writing, fiction, art and woodcuttings, ‘everyday’ and ‘exotic’ cultural artefacts, journalism, political polemic, the law and witness testimony. This book will be essential reading for students of history and memory, providing an accessible guide to the historical study of memory through a focus on varied source materials.

*Sing to It* - Amy Hempel 2019-03-26

LONGLISTED FOR THE PEN/FAULKER AWARD ONE OF TIME'S 100 BEST BOOKS OF THE YEAR ONE OF NPR'S BEST BOOKS OF 2019 “All the tawdry details I’m dying for are in these stories, but they’re given out like old sweaters—without shame, without guile. Amy Hempel is the writer who makes me feel most affiliated with other humans; we are all living this way—hiding, alone, obsessed—and that’s ok.” —Miranda July From legendary writer Amy Hempel, one of the most celebrated and original voices in American short fiction: a ravishing, sometimes heartbreaking new story collection—her first in over a decade. Amy Hempel is a master of the short story. A multiple award winner, Hempel is highly regarded among writers, reviewers, and readers of contemporary fiction. This new collection, her first since her *Collected Stories* published more than a decade ago, is a literary event. These fifteen exquisitely honed stories reveal Hempel at her most compassionate and spirited, as she introduces characters, lonely and adrift, searching for connection. In “A Full-Service Shelter,” a volunteer at a dog shelter tirelessly, devotedly cares for dogs on a list to be euthanized. In “Greed,” a spurned wife examines her husband’s affair with a glamorous, older married woman. And in “Cloudland,” the longest story in the collection, a woman reckons with the choice she made as a teenager to give up her newborn infant. Quietly dazzling, these stories are replete with moments of revelation and transcendence and with Hempel’s singular, startling, inimitable sentences.

**The Most Influential Women of Our Time** - Chiara Pasqualetti Johnson 2018-08-02

These 50 women pursued their ambitions and dreams—even when the world told them they shouldn't. They experienced triumph and tragedies, and lived lives as thrilling and moving as any novel. Ranging from artists, designers, and actresses to entrepreneurs, scientists, and activists, the women include Maria Montessori, Amelia Earhart, Coco Chanel, Simone de Beauvoir, Rosa Parks, Eva Perón, Josephine Baker, Jane Goodall, and Malala Yousafzai.

[A Lady's Life in the Rocky Mountains](#) - Isabella Lucy Bird 1960

Women were scarce enough in the West of the late nineteenth century, and a middle-aged English lady traveling alone, by horseback, was a real phenomenon. It was during the autumn and early winter of 1873 that Isabella Bird made this extended tour of the Rocky Mountain area of Colorado guided by desperado Mountain Jim. This book contains letters to her sister detailing her experiences during this travel. -- from back cover

**Christian Morgenstern's Galgenlieder** - Christian Morgenstern 1963

**I Was a Doctor in Auschwitz** - Gisella Perl 2019-02-28

Gisella Perl's memoir is an extraordinarily candid account of women's extreme efforts to survive Auschwitz. It was the first memoir by a woman survivor and established the model for understanding the gendered Nazi policies and practices targeting Jewish women as racially poisonous.

**Passenger to Teheran** - Victoria Sackville-West 1926

[Hints on Landscape Gardening](#) - Foundation for Landscape Studies 2014-05-29

Park Muskau, Prince Pückler's extraordinary nineteenth-century creation on both sides of the River Neisse, together with Hints on Landscape Gardening (Andeutungen über Landschaftsgärtnerei), his instructive 1834 treatise based on the park's design, are as important to American landscape architects as the work and writings of Frederick Law Olmsted. This thoroughly new and authoritative edition translated by John Hargraves, with an introduction by landscape historian and Pückler authority Linda Parshall, contains the same forty-four images and four

maps as the original large-format Atlas accompanying the German text. Published in collaboration with the Foundation for Landscape Studies, the print edition of the book shall be matched by an electronic publication that contains the illustrations in a size corresponding with the original dimensions (approx. 51 x 35 cm) of the Atlas. The page concordance in the margins of the translated text allows for a precise reference to the German original.

**The Christmas Quilt** - Jennifer Chiaverini 2007-11-01

A heartwarming rendition of how Christmas traditions at Elm Creek Manor were created—and embellished—over generations. When Christmas Eve comes to Elm Creek Manor, the tenor of the holiday is far from certain. Sylvia Bergstrom Compson, the Master Quilter, has her own reasons for preferring a quiet, even subdued, Christmas. Her young friend Sarah McClure, however, takes the opposite view and decides to deck the halls brightly. As she explores the trunks packed with Bergstrom family decorations that haven't been touched in more than fifty years, Sarah discovers a curious Christmas quilt. Begun in seasonal fabrics and patterns, the quilt remains unfinished. Sylvia reveals that the handiwork spans several generations and a quartet of Bergstrom quilters—her great aunt, her mother, her sister, and herself. As she examines the array of quilt blocks each family member contributed but never completed, memories of Christmases past emerge. At Elm Creek Manor, Christmas began as a celebration of simple virtues—joy and hope buoyed by the spirit of giving. As each successive generation of Bergstroms lived through its unique trials—the antebellum era, the Great Depression, World War II—tradition offered sustenance even during the most difficult times. For Sylvia, who is coping with the modern problem

of family dispersed, estranged, or even forgotten, reconciliation with her personal history may prove as elusive as piecing the Christmas Quilt. Elm Creek Manor is full of secrets, from a Christmas tree with unusual

properties to the sublime Bergstrom strudel recipe. Sylvia's tales at first seem to inform her family legacy but ultimately illuminate far more, from the importance of women's art to its place in commemorating our shared experience, at Christmastime and in every season.
