The Art of Voice: Poetic Principles and Practice - Tony Hoagland
2019-03-05

An award-winning poet, teacher, and “champion of poetry” (New York Times) demystifies the elusive element of voice. In this accessible and distilled craft guide, acclaimed poet Tony Hoagland approaches poetry through the frame of poetic voice, that mysterious connective element that binds the speaker and reader together. A poem strong in the dimension of voice is an animate thing of shifting balances, tones, and temperatures, by turns confiding, vulgar, bossy, or cunning—but above all, alive. The twelve short chapters of *The Art of Voice* explore ways to create a distinctive poetic voice, including vernacular, authoritative statement, material imagination, speech register, tone-shifting, and using secondary voices as an enriching source of texture in the poem. A comprehensive appendix contains thirty stimulating models and exercises that will help poets cultivate their craft. Mining his personal experience as a poet and analyzing a wide range of examples from Catullus to Marie Howe, Hoagland provides a lively introduction to contemporary poetry and an invaluable guide for any practicing writer.

I had the opportunity to do some radio spots today---and for the first time, started to touch on "voice acting" instead of "voice over." This really made a difference in my read---and the director was delighted! Eric Funk, President, Entertainment on Hold, Inc. I have been a successful voice over for about 10 years and recently bought and read *The Art of Voice Acting*. I must have been guided to do it! It was like receiving a (gentle) kick in my behind, spurring me to get reorganized, regvanized, newly inspired because---to say the truth---I was sitting on my laurels doing very little to perfect my skills or bring new life to my career. Now I feel full of new energy. This is what I call an inspired purchase!" Anna Rigano, professional voice actor (UK)

[What Editors Do](#) - Peter Ginna 2017-10-06

Editing is an invisible art where the very best work goes undetected. Editors strive to create books that are enlightening, seamless, and

pleasurable to read, all while giving credit to the author. This makes it all the more difficult to truly understand the range of roles they inhabit while shepherding a project from concept to publication. In [What Editors Do](#), Peter Ginna gathers essays from twenty-seven leading figures in book publishing about their work. Representing both large houses and small, and encompassing trade, textbook, academic, and children's publishing, the contributors make the case for why editing remains a vital function to writers—and readers—everywhere. Ironically for an industry built on words, there has been a scarcity of written guidance on how to actually approach the work of editing. This book will serve as a compendium of professional advice and will be a resource both for those entering the profession (or already in it) and for those outside publishing who seek an understanding of it. It sheds light on how editors acquire books, what constitutes a strong author-editor relationship, and the editor's vital role at each stage of the publishing process—a role that extends far beyond marking up the author's text. This collection treats editing as both art and craft, and also as a career. It explores how editors balance passion against the economic realities of publishing. [What Editors Do](#) shows why, in the face of a rapidly changing publishing landscape, editors are more important than ever.

Shop Class as Soulcraft - Matthew B. Crawford 2009-05-28

A philosopher/mechanic's wise (and sometimes funny) look at the challenges and pleasures of working with one's hands "This is a deep exploration of craftsmanship by someone with real, hands-on knowledge. The book is also quirky, surprising, and sometimes quite moving." —Richard Sennett, author of *The Craftsman* Called "the sleeper hit of the publishing season" by *The Boston Globe*, *Shop Class as Soulcraft* became an instant bestseller, attracting readers with its radical (and timely) reappraisal of the merits of skilled manual labor. On both economic and psychological grounds, author Matthew B. Crawford questions the educational imperative of turning everyone into a "knowledge worker," based on a misguided separation of thinking from doing. Using his own experience as an electrician and mechanic, Crawford presents a wonderfully articulated call for self-reliance and a moving reflection on how we can live concretely in an ever more abstract world.

The Art of Voice Acting - James R. Alburger 2019

Now in its sixth edition, *The Art of Voice Acting* covers all aspects of the craft and business of performing voiceover, from basic acting techniques and exercises for keeping the voice in top condition to marketing and promotion of the actor.

Unconventions - Michael Martone 2005

Unconventions is a quirky and provocative miscellany that reveals Michael Martone's protean interests as a writer and a writing teacher. Martone has, shall we say, a problem with authority. His chief pleasure in knowing the rules of his vocation comes from trying out new ways to bend, blend, or otherwise defy them. The pieces gathered in *Unconventions* are drawn from a long career spent loosening the creative strictures on writing. Including articles, public addresses, essays, interviews, and even a eulogy, these writings vary greatly in form but are unified in addressing the many technical and artistic issues that face all writers, particularly those interested in experimental and nontraditional modes and forms. Martone's approach has always been to synthesize, to understand and use any technique, formula, or style available. "I find myself, then," he writes, "self-identifying as a formalist, both and neither an experimenter and/or a traditionalist." In "I Love a Parade: An Afterword," Martone writes about not fitting in--and loving it--as he recalls the time he marched alone in a local Labor Day parade, as a one-person delegation from the National Writers Union. Elsewhere, in writings formally, stylistically, purposely at odds with themselves, Martone's expansive curiosity is on full display. We learn about camouflage techniques, how a baby acquires language, how to "read" a WPA-era post office mural, and why Martone sold his stock in the *New Yorker* and reinvested his money in the company that makes Etch A Sketch®. *Unconventions*, then, is Martone's "Frankensteinian monster," a kind of unruly, hybrid spawn of the mainstream writing enterprise. "Writing seems to me an intrinsic pleasure, an end in itself first," says Martone. "The question for me is not whether my writing, or any piece of writing, is good or bad but what the writing is and what it is doing and how finally it is used or can be used by others."

The Actor's Art and Craft - William Esper 2008-04-08

William Esper, one of the leading acting teachers of our time, explains and extends Sanford Meisner's legendary technique, offering a clear, concrete, step-by-step approach to becoming a truly creative actor. Esper

worked closely with Meisner for seventeen years and has spent decades developing his famous program for actor's training. The result is a rigorous system of exercises that builds a solid foundation of acting skills from the ground up, and that is flexible enough to be applied to any challenge an actor faces, from soap operas to Shakespeare. Co-writer Damon DiMarco, a former student of Esper's, spent over a year observing his mentor teaching first-year acting students. In this book he recreates that experience for us, allowing us to see how the progression of exercises works in practice. The Actor's Art and Craft vividly demonstrates that good training does not constrain actors' instincts—it frees them to create characters with truthful and compelling inner lives.

Minding Movies - David Bordwell 2011-04-15

David Bordwell and Kristin Thompson are two of America's preeminent film scholars. You would be hard pressed to find a serious student of the cinema who hasn't spent at least a few hours huddled with their seminal introduction to the field—Film Art, now in its ninth edition—or a cable television junkie unaware that the Independent Film Channel sagely christened them the "Critics of the Naughts." Since launching their blog Observations on Film Art in 2006, the two have added web virtuosos to their growing list of accolades, pitching unconventional long-form pieces engaged with film artistry that have helped to redefine cinematic storytelling for a new age and audience. Minding Movies presents a selection from over three hundred essays on genre movies, art films, animation, and the business of Hollywood that have graced Bordwell and

Thompson's blog. Informal pieces, conversational in tone but grounded in three decades of authoritative research, the essays gathered here range from in-depth analyses of individual films such as Slumdog Millionaire and Inglourious Basterds to adjustments of Hollywood media claims and forays into cinematic humor. For Bordwell and Thompson, the most fruitful place to begin is how movies are made, how they work, and how they work on us. Written for film lovers, these essays—on topics ranging from Borat to blockbusters and back again—will delight current fans and gain new enthusiasts. Serious but not solemn, vibrantly informative without condescension, and above all illuminating reading, Minding Movies offers ideas sure to set film lovers thinking—and keep them returning to the silver screen.
