Mafia Business - Pino

Men and Bears - AA.VV.
2020-01-23

The time of Carnival represents a “wild” time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic images come from far off times and places to tell a story that

belongs to our common origins. The bear assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete.

Heroicus. Gymnasticus.

Discourses 1 And 2 -

Philostratus 2014

In the writings of Philostratus (ca. 170-ca. 250 CE), the renaissance of Greek literature in the second century CE reached its height. His *Life of Apollonius of Tyana*, *Lives of the Sophists*, and *Imagines* reconceive in different ways Greek religion, philosophy, and art in and for the world of the Roman Empire. In this volume, *Heroicus* and *Gymnasticus*, two works of equal creativity and sophistication, together with two brief *Discourses* (*Dialexeis*), complete the Loeb

edition of his writings.

Heroicus is a conversation in a vineyard amid ruins of the Protesilaus shrine (opposite Troy on the Hellespont), between a wise and devout vinedresser and an initially skeptical Phoenician sailor, about the beauty, continuing powers, and worship of the Homeric heroes. With information from his local hero, the vinedresser reveals unknown stories of the Trojan campaign especially featuring Protesilaus and Palamedes, and describes complex, miraculous, and violent rituals in the cults of Achilles. *Gymnasticus* is the sole surviving ancient treatise on sports. It reshapes conventional ideas about the athletic body and expertise of the athletic trainer and also explores the history of the Olympic Games and other major Greek athletic festivals, portraying them as distinctive venues for the display of knowledge.

The Logic of the History of Ideas - Mark Bevir 2002-06-20
Human cultures generate meanings, and the history of

ideas, broadly conceived, is the study of these meanings. An adequate theory of culture must therefore rest on a suitable philosophical enquiry into the nature of the history of ideas. Mark Bevir's book explores the forms of reasoning appropriate to the history of ideas, enhancing our understanding by grappling with central questions such as: What is a meaning? What constitutes objective knowledge of the past? What are beliefs and traditions? How can we explain why people held the beliefs they did? The book ranges widely over issues and theorists associated with post-analytic philosophy, post-modernism, hermeneutics, literary theory, political thought, and social theory.

The Making of Late Antiquity - Peter Brown 1978

This book explores the significant changes that took place in the classical world between the late second and early fourth centuries. A new elitism in religion had its parallel in society as a whole and a wide polarization of the

wealthy and the poor developed, as unbridled ambition made the sharp distinction between the rulers and the ruled. --From publisher's description.

A Society Without Fathers Or Husbands - Cai Hua 2001

The Na of China, farmers in the Himalayan region, live without the institution of marriage. Na brothers and sisters live together their entire lives, sharing household responsibilities and raising the women's children. Because the Na, like all cultures, prohibit incest, they practice a system of sometimes furtive, sometimes conspicuous nighttime encounters at the woman's home. The woman's partners--she frequently has more than one--bear no economic responsibility for her or her children, and "fathers," unless they resemble their children, remain unidentifiable. This lucid ethnographic study shows how a society can function without husbands or fathers. It sheds light on marriage and kinship, as well as on the position of

women, the necessary conditions for the acquisition of identity, and the impact of a communist state on a society that it considers backward.

On Ugliness - Umberto Eco 2011

Beauty and ugliness are two sides of the same coin; by ugliness we usually mean the opposite of beauty and we often define the first in order to understand the nature of the second. But the various depictions of ugliness over the centuries are richer and more unpredictable than is commonly thought. The striking images and anthological quotations in On

Ugliness lead us on an extraordinary journey through the passions, terrors and nightmares of almost three thousand years, where acts of rejection go hand in hand with touching instances of empathy, and an aversion to deformity is accompanied by seductive violations of all classical canons. With his characteristic wit and erudition, Umberto Eco draws on examples in art and literature from ancient times to the present day. Abundantly illustrated with demons, madmen, vile enemies and disquieting presences, with freaks and the living dead, On Ugliness is conceived for a vast and diverse readership, and is an invaluable companion volume to On Beauty.

Warburg's 1923 lecture, first published in German in 1988 and now available in the first complete English translation, offers at once a window on his career, a formative statement of his cultural history of modernity, and a document in the ethnography of the American Southwest. This edition includes thirty-nine photographs, many of them originally presented as slides with the speech, and a rich interpretive essay by the translator.

The Living God and the

Fullness of Life - Jürgen

Moltmann 2015-11-06

Modern humanity has accepted a truncated, impoverished definition of life. Focusing solely on material realities, we have forgotten that joy, purpose, and meaning come from a life that is both immersed in the temporal and alive to the transcendent. We have, in other words, ceased to

live in God. In this book,

renowned theologian Jürgen

Moltmann shows us what that

life of joy and purpose looks

like. Describing how we came

to live in a world devoid of the

ultimate, he charts a way back

to an intimate connection with

the biblical God. He counsels

that we adopt a "theology of

life," an orientation that sees

God at work in both the

mundane and the extraordinary

and that pushes us to work for

a world that fully reflects the

life of its Creator. Moltmann

offers a telling critique of the

shallow values of consumerist

society and provides a

compelling rationale for why

spiritual sensibilities and

encounter with God must lie at

the heart of any life that seeks

to be authentically human.

The Savage Father - Pier Paolo Pasolini 1999
This is one of Pasolini's least known books, it is one of his most important challenges to himself and to the world. The book pits assumed Western cultural supremacy against the battle for Africa's freedom and self-assertion. The Savage Father offers a deep analysis of the internal struggles between the coloniser and the colonised, as well as showing us the externalised conditioning to which both are prey.

The End of Our Time - Nikolai Berdiaev 2009
This book is the philosophical fruit of Nikolai Berdyaev's first-hand experience of, and reflections on, the crisis of European civilization in the aftermath of the Great War and

the Russian Revolution. Berdyaev tells us that the modern age, with its failed Humanism, is being replaced by a new epoch: "the new middle ages," an epoch of darkness, an epoch of the universal night of history. Berdyaev asserts that this night is a good thing: in this darkness, which is a return to the mysterious life of the spirit, the destruction inflicted by the previous period of "light" will be healed: "Night is not less wonderful than day; it is equally the work of God; it is lit by the splendor of the stars and it reveals to us things that the day does not know. Night is closer than day to the mystery of all beginning" (pp. 70-71, present volume).

Christianity, Truth, and Weakening Faith - Gianni Vattimo 2010-02-16

The debate over the place of religion in secular, democratic societies dominates philosophical and intellectual discourse. These arguments often polarize around simplistic reductions, making efforts at reconciliation impossible. Yet more rational stances do exist, positions that broker a peace between relativism and religion in people's public, private, and ethical lives. Christianity, Truth, and Weakening Faith advances just such a dialogue, featuring the collaboration of two major philosophers known for their progressive approach to this issue. Seeking unity over difference, Gianni Vattimo and René Girard turn to Max Weber, Eric Auerbach, and Marcel Gauchet, among others, in their exploration of truth and liberty, relativism and faith, and the tensions of a world filled with new forms of religiously inspired violence. Vattimo and Girard ultimately conclude that secularism and the involvement (or lack thereof) of religion in governance are, in essence, produced by Christianity. In

other words, Christianity is "the religion of the exit from religion," and democracy, civil rights, the free market, and individual freedoms are all facilitated by Christian culture. Through an exchange that is both intimate and enlightening, Vattimo and Girard share their unparalleled insight into the relationships among religion, modernity, and the role of Christianity, especially as it exists in our multicultural world.

Holy Anorexia - Rudolph M. Bell 2014-05-09

Is there a resemblance between the contemporary anorexic teenager counting every calorie in her single-minded pursuit of thinness, and an ascetic medieval saint examining her every desire? Rudolph M. Bell suggests that the answer is yes. "Everyone interested in anorexia nervosa . . . should skim this book or study it. It will make you realize how dependent upon culture the definition of disease is. I will never look at an anorexic patient in the same way again."—Howard Spiro,

The Renewal of Pagan Antiquity - Aby Warburg 1999
A collection of essays by the art historian Aby Warburg, these essays look beyond iconography to more psychological aspects of artistic creation: the conditions under which art was practised; its social and cultural contexts; and its conceivable historical meaning.
