*The Golden Thread of World History: Advanced Civilizations as Far as 30,000 Years Ago - Alexandre Saint-Yves D'Alveydre 2019-06-15*  
The Golden Thread of World History is conceived in such a way that the contemporary readers, exploring wider and deeper historical territories, will become more perceptive, intelligent, insightful and wiser, and even eager to participate positively in the necessary reconciliation between Religion and Science as they are re-morphing respectively into "Scientific Religion" and "Hypernatural Science". This book clearly demonstrates that "Science" and "Religion" having in many instances recognized and experienced, in regards with their quest for Essential Truth, are like two faces of the same coin. Whenever they combine their enquiring efforts, they both thrive. But whenever they enter into hostile opposition, either they both fall back and decline, or Science alone seems to win the fight and Religious timeless mighty truths are distorted and stifled; then both contenders end up contemptuously accusing each other of propagating myths and fantasies, and, consequently, Human Life and its sustaining environment fatally wane and deteriorate. This erudite and inspired author has gathered and intelligently linked for us myriad fragments of that Fundamental "Savancy", which combines Science and Religion, their respective Principles, Methods and Applications. The readers will enjoy discovering the fruits of that "Integral Science" as it unfolded frequently in remote past. They are scattered all around the globe, in the form of ancient grand Architectural Monuments, secular Writings and sacred Scriptures, Topical and Personal names, Social

Organizations, Government Structures, Teaching and Learning systems, and more. Content Samples: MODERN SCIENCE AND THE OLD TESTAMENT\_\_ ESSENCE AND SUBSTANCE OF THE UNIVERSE\_\_ ESSENCE AND SUBSTANCE OF BEINGS AND TERRESTRIAL ELEMENTS \_\_ SCIENCE IN ANTIQUITY \_\_ REAL ORIGIN OF THE HEBREWS \_\_ CYCLE OF RAM \_\_ UNIVERSAL EMPIRE OF THE ARIES \_\_ UNIVERSAL SCIENTIFIC THEOCRACY \_\_ THE SCHISM OF IRSHU \_\_ ORIGIN OF THE BATTLE OF THE SEXES \_\_ CHRISTNA IN INDIA \_\_ FO HI IN CHINA \_\_ ZOROASTER IN PERSIA \_\_ ABRAMIDS OR NEO RAMIDS FROM MESOPOTAMIA \_\_ MOSES IN EGYPT \_\_ ORPHEUS IN GREECE \_\_ THE HISTORICAL EXODUS \_\_ ARBITRAL CONSTITUTION OF ISRAEL \_\_ INTEGRAL SCIENCE OF MOSES AND BIBLICAL TRUTH DECRYPTED \_\_ JESUS PROMISE OF IMMORTALITY. In this exhaustive account of long, long past civilizations, an assortment of conflicts erupts cyclically: Masculine vs Feminine, Secularism vs Sacred Mysteries, Arbitral governance by the many vs Arbitrary oligarchy. The author is explicit as to the remedies that have been effective in the remote past and may again be applied successfully today. If you have not made up your mind about the existence of hyperphysical and supernatural realms, this read offers new valuable knowledge, while opening for wider perspectives on the multiple "forces" interacting within your daily normal life. However, if you are, for now, in denial of the realms existing beyond the span of normal sensorial perceptions, this book will

delight you, as it contains a treasure trove of useful data that even pure reason cannot reject. Though, if you are among the happy ones who welcome every day the Light of Divine Love and compassionate Providence, this read will enable you to progress further on the path to higher Wisdom and Perfection.

*Atlantis and the Cycles of Time* - Joscelyn Godwin 2010-11-18

A comprehensive study of the major occult writings on Atlantis • Fully examines the many occult teachings on Atlantis, including those from G. I. Gurdjieff, Madame Blavatsky, Julius Evola, Edgar Cayce, Fabre d'Olivet, and Dion Fortune • Shows how these writings correlate with the concept of cyclical history, such as the Mayan calendar and 2012, the Age of Aquarius, and the four Yugas • By a renowned scholar, author, editor, and translator of more than 30 books Atlantis has held a perennial place in the collective imagination of humanity from ancient Greece onward. Many of the great minds of the occult and esoteric world wrote at length on their theories of Atlantis--about its high culture, its possible location, its ultimate demise, and their predictions of a return to Atlantean enlightenment or the downfall of modern society. Beginning with a review of the rationalist writings on Atlantis--those that use geographic and geologic data to validate their theories--renowned scholar Joscelyn Godwin then analyzes and compares writings on Atlantis from many of the great occultists and esotericists of the 19th and 20th centuries, including Fabre d'Olivet, G. I. Gurdjieff, Guido von List, Julius Evola, Edgar Cayce, Dion Fortune, and René Guénon, whose writings often stem from deeper, metaphysical sources, such as sacred texts, prophecy, or paranormal communication. Seeking to unravel and explain the histories and interpretations of Atlantis and its kindred myths of Lemuria and Mu, the author shows how these different views go hand-in-hand with the concept of cyclical history, such as the Vedic system of the four Yugas, the Mayan calendar with its 2012 end-date, the theosophical system of root races, and the precession of the equinoxes. Venturing broader and deeper than any other book on Atlantis, this study also covers reincarnation, human evolution or devolution, the origins of race, and

catastrophe theory.

**The Mystery of Mrs. Christie** - Marie Benedict 2020-12-29

THE INSTANT NEW YORK TIMES AND USA TODAY BESTSELLER! "A stunning story... The ending is ingenious, and it's possible that Benedict has brought to life the most plausible explanation for why Christie disappeared for 11 days in 1926."—The Washington Post The New York Times and USA Today bestselling author of *The Only Woman in the Room* returns with a thrilling reconstruction of one of the most notorious events in literary history: Agatha Christie's mysterious 11-day disappearance in 1926. In December 1926, Agatha Christie goes missing. Investigators find her empty car on the edge of a deep, gloomy pond, the only clues some tire tracks nearby and a fur coat left in the car—strange for a frigid night. Her World War I veteran husband and her daughter have no knowledge of her whereabouts, and England unleashes an unprecedented manhunt to find the up-and-coming mystery author. Eleven days later, she reappears, just as mysteriously as she disappeared, claiming amnesia and providing no explanations for her time away. The puzzle of those missing eleven days has persisted. With her trademark historical fiction exploration into the shadows of the past, acclaimed author Marie Benedict brings us into the world of Agatha Christie, imagining why such a brilliant woman would find herself at the center of such murky historical mysteries. What is real, and what is

mystery? What role did her unfaithful husband play, and what was he not telling investigators? Agatha Christie novels have withstood the test of time, due in no small part to Christie's masterful storytelling and clever mind that may never be matched, but Agatha Christie's untold history offers perhaps her greatest mystery of all. Fans of *The Secrets We Kept*, *The Lions of Fifth Avenue*, and *The Alice Network* will enjoy this riveting saga of literary history, suspense, and love gone wrong. **Infinite Distraction** - Dominic Pettman  
2016-01-11

It is often argued that contemporary media homogenize our thoughts and actions, without us being fully aware of the restrictions they impose. But what if the problem is not that we are all synchronized to the same motions or moments, but rather dispersed into countless different emotional micro-experiences? What if the effect of so-called social media is to calibrate the interactive spectacle so that we never fully feel the same way as other potential allies at the same time? While one person is fuming about economic injustice or climate change denial, another is giggling at a cute cat video. And, two hours later, vice versa. The nebulous indignation which constitutes the very fuel of true social change can be redirected safely around the network, avoiding any dangerous surges of radical activity. In this short and provocative book, Dominic Pettman examines the deliberate deployment of what he calls 'hypermodulation,' as a key strategy encoded into the contemporary media environment. His account challenges the various narratives that portray social media as a sinister space of synchronized attention, in which we are busily clicking ourselves to death. This critical reflection on the unprecedented power of the Internet requires us to rethink the potential for infinite distraction that our latest technologies now allow.

**The Order of the Solar Temple** - Professor James R Lewis 2013-05-28

In October 1994, fifty-three members of the Order of the Solar Temple in Switzerland and Québec were murdered or committed suicide. This incident and two later group suicides in subsequent years played a pivotal role in inflaming the cult controversy in Europe, influencing the public to support harsher actions against non-traditional religions. Despite the importance of the Order of the Solar Temple, there are relatively few studies published in English. This book brings together the best scholarship on the Solar Temple including newly commissioned pieces from leading scholars, a selection of Solar Temple documents, and important previously published articles newly edited for inclusion within this book. This is the first book-length study of the Order of the Solar Temple to be published in English.

**L'Agartha ? mythe ou réalité** - Wilfried-René Chettéoui 1986

**The Kingdom of Agartha** - Marquis Alexandre Saint-Yves d'Alveydre 2008-08-14  
First English translation of the book that introduced the realm of Hollow Earth • Explores the underground world of Agartha, sometimes

known as Shambhala, a realm that is spiritually and technologically advanced beyond our modern culture • One of the most influential works of 19th-century occultism • Written by the philosopher who influenced Papus, René Guénon, and Rudolf Steiner  
The underground realm of Agartha was first introduced to the Western world in 1886 by the French esoteric philosopher Alexandre Saint-Yves d'Alveydre with his book *Mission de l'Inde*, translated here for the first time into English. Saint-Yves's book maintained that deep below the Himalayas were enormous underground cities, which were under the rule of a sovereign pontiff known as the Brahâtna. Throughout history, the "unknown superiors" cited by secret societies were believed to be emissaries from this realm who had moved underground at the onset of the Kali-Yuga, the Iron Age. Ruled in accordance with the highest principles, the kingdom of Agartha, sometimes known as Shambhala, represents a world that is far advanced beyond our modern culture, both technologically and spiritually. The inhabitants possess amazing skills their above ground counterparts have long since forgotten. In addition, Agartha is home to huge libraries of books engraved in stone, enshrining the collective knowledge of humanity from its remotest origins. Saint-Yves explained that the secret world of Agartha, and all its wisdom and wealth, would be made available for humanity when Christianity and all other known religions of the world began truly honoring their own sacred teachings.

**Mission of the Jews** - Alexandre Saint-Yves d'Alveydre 2019-08-14  
Quotes from SAINT-YVES D'ALVEYDRE Excerpts from MISSION OF THE JEWS "One of the main purposes of this book is to prove that Judeo-Christian intellectual and social esoterism is rightly the continuation, the fulfillment, of the whole antique theosophical tradition, of which the two Testaments have made us inheritors." "More than 8,000 years before Christ, existed a Universal Social State, coordinated within itself by a whole hierarchical series of arbitral institutions." "Now, once one holds this secret thread of History, it is no longer permissible to misunderstand the fact

that Religion was everywhere the safeguard of Science, of good social organization and of public liberties." "Being a reflection of the Universe, the ancient Temples possessed scientific doctrines. Moses knew all these traditions. In his Book "Moses himself covered his thoughts with a triple hermetic veil only to be later lifted by Initiation. And in the parables of His Testament, Jesus Christ promised the Kingdom of the Holy Spirit, where All Truth will be demonstrated and known."

**Our Hollow Earth** - 2019-05-23

THE EARTH IS HOLLOW -- AND WE HAVE THE PHOTOS TO PROVE IT! WE ARE NOT ALONE ON THIS PLANET.-- OTHERS ARE HERE! There is said to be a vast world beneath our feet, a civilization located at the innermost core of our planet. Some call it the Hollow Earth or the Inner Earth. It has been described as a virtual paradise by some and a horrifying, hellish nightmare by others. Doorways into this mystery realm have been sought for centuries. Some say they have actually "slipped inside" our planet. A number have given extraordinary accounts of their voyage, while others have vanished, never to be seen by another living soul again. Frankly, the text books - according to the experts consulted for this volume - are all wrong! For, if you think life exists only on the surface of the

planet, you have been listening to the "party line" way too long. There are those who see the Earth as being multilayered, and that what goes on "above" definitely goes on "below" - and maybe more so to the extreme. Many have been led to believe that the first tale of a voyage inside our hollow globe was told by Jules Verne. "Journey To The Center Of The Earth" is the exciting story of a group of adventurers who are dying of hunger and thirst in the dark caverns below. They encounter prehistoric beasts before arriving at their destination, thousands of miles beneath our planet's surface. The tale was science fiction - or was it? Soon others were to come forward to relate their own perilous adventures in the dark dimensions beneath our feet. But Verne had NOT been the first writer to use this as a basis for his tale. Whether he had simply invented the story or based it upon rumors that were making the rounds in Europe, stories saying that the center of the planet was not furnace-like, but a beautiful "otherworldly paradise" in the category of an Eden, as it would be described Biblically. In fact, more than a hundred years before, a Norwegian scholar wrote a tome that has almost been forgotten in the centuries that have passed. In this work he spoke of a weird variety of intelligent beings who interacted with the hero of his story. A full translation of this RARE work is presented here in polished English for today's student of the Hollow Earth theory. There are also to be found tales of fifteen-foot giants, a variety of hideous monsters and ten-foot tall reptilians living underground who inhabit a vast tunnel system constructed by a civilization that departed thousands upon thousands of years ago from the surface of the planet after the air aboveground became highly radioactive. There is evidence that the governments and the militaries of various nations know of the existence of this Inner World, but keep it a closely guarded secret. These official agencies are also aware that the objects we know as UFOs originate from inside this Inner World, and that a "privileged" group of Nazis escaped to the Hollow Earth through entrances at the South Pole. America's aviation ace, Admiral Richard Byrd, ventured across this icy hidden stronghold but left without confronting the potential menace concealed there. There are even possible links to the

assassination of John F. Kennedy associated with the Inner Earth. Yes, there were giants in the Earth in Biblical times - and they possibly still exist, not far from where we live, mere miles below our towns and homes.

How Euler Did Even More - C. Edward Sandifer  
2014-11-19

Sandifer has been studying Euler for decades and is one of the world's leading experts on his work. This volume is the second collection of Sandifer's "How Euler Did It" columns. Each is a jewel of historical and mathematical exposition. The sum total of years of work and study of the most prolific mathematician of history, this volume will leave you marveling at Euler's clever inventiveness and Sandifer's wonderful ability to explicate and put it all in context.

**Gods with Amnesia** - Robert Sepehr  
2016-03-28

The idea that our planet consists of a hollow, or honeycombed, interior is not new. Some of the oldest cultures speak of civilizations inside of vast cavern-cities, within the bowels of the earth. According to certain Buddhist and Hindu traditions, secret tunnels connect Tibet with a subterranean paradise, and they call this legendary underworld Agartha. In India, this underground oasis is best known by its Sanskrit name, Shambhala, thought to mean 'place of tranquility.' Mythologies throughout the world, from South America to the Arctic, describe numerous entrances to these fabled inner kingdoms. Many occult organizations, esoteric authors, and secret societies concur with these myths and legends of subterranean inhabitants, who are the remnants of antediluvian civilizations, which sought refuge in hollow caverns inside the earth. Assuming that the myths are true, and the Earth is partially hollow, how could life survive underground? How would organisms receive the ventilation required to breathe miles below the surface? What would provide the light needed to see, or to cause the photosynthesis necessary for the plant life that allegedly exists in these inner worlds? Are there any known sources of sustenance available that could provide for a large human population? What evidence is there that a sustainable biosphere could exist miles below the surface, totally isolated from the nourishment and the established life cycle provided by the sun?

Where are the entrances to inner earth, and which races live there? Author and anthropologist, Robert Sepehr, explores these questions and attempts to unlock their riddles, which have eluded any serious consideration in mainstream academia. Numerous endeavours have been undertaken to access the interior of the earth. Polar expeditions and battles, such as Operation Highjump, still remain largely classified, and have been shrouded in secrecy for decades, but scientific revelations validating the rumors surrounding these covert events, and their implications, are finally being exposed to daylight. What are the mysteries of inner Earth?

**LES ENFANTS DE LA MATRICE TOME 1 -**

David Icke

Nous arrivons sur cette planète, enchâssés dans une matrice conçue par des forces invisibles qui contrôlent l'humanité depuis des millénaires. Il ne s'agit pas du scénario catastrophe d'un film hollywoodien ou d'un épisode des Affaires non classées. C'est notre réalité. Avec l'aplomb qui le caractérise, David Icke dénonce la terrifiante conspiration dont nous, les humains, sommes victimes depuis des temps immémoriaux. Cette conspiration est dirigée à partir d'une dimension hors du monde physique et le Plan se déroule sous un énorme truquage avec les grands de la Terre comme complices. David Icke décline les liens consanguins entre des entités d'origine reptilienne et les créatures humaines qu'elles dominent. Les dirigeants actuels de la planète (quels qu'ils soient) sortent des mêmes viscères que les rois et reines de jadis (voir LE PLUS GRAND SECRET). L'humanité entière est en danger quand elle remet son avenir entre les mains de ses gouvernements. Les révélations de David Icke sont essentielles à l'éveil des peuples : leurs idoles sont des marionnettes imbues de leur pouvoir passager et feignent d'ignorer la perfidie du rôle qui leur est assigné. L'humanité est emmurée dans une prison psychologique, émotive et spirituelle. Et l'humanité, c'est chacun de nous ! Les livres de David Icke dérangent parce que l'auteur prouve que la réalité quotidienne de notre planète dépasse largement l'imagination la plus débordante. Analysons avec minutie les informations retransmises par les médias et vérifions à la loupe chacun des faits et gestes des têtes dirigeantes et surtout, souvenons-nous des inepties qu'on nous sert. Le résultat risque d'être troublant ! Ne soyons plus dupes de cette vaste machination et brisons la matrice! C'est une question de vie, de notre vie. Gouvernons-nous en conséquence !

Sirius - Jay B. Holberg 2007-02-22

This book tells two stories. The first and most obvious is why the star known as Sirius has been regarded as an important fixture of the night sky by many civilizations and cultures since the beginnings of history. A second, but related, narrative is the prominent part that Sirius has played in how we came to achieve our current scientific understanding of the nature and fate of the stars. This is the first book to integrate the cultural history of Sirius with modern astrophysics in a way which provides a realistic view of how science progresses over time.
