Antifascisms - David Ward 1996

This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than two decades of a Fascist regime and a disastrous war experience during which Italy changed sides, these years saw the laying of the political and cultural foundations for what has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, Antifascisms offers a thorough survey of the personalities and positions that informed the decisions taken in this crucial phase of modern Italian history.

Beyond the Soundtrack - Daniel Goldmark 2007-06-08

"Put briefly, this is a superb collection of essays. They are lucidly and eloquently written, and make their points with wit and clarity. They are full of perceptive, highly stimulating, and occasionally provocative illustrations of how practice connects to theory (and vice versa) without getting bogged down in academic language. The contributors include a combination of exceptionally admired film music scholars, and of musicologists renowned for their keen insights into the cultural contexts of music production and reception. This book is an excellent resource and compelling read."—Derek B. Scott, author of *From the Erotic to the Demonic: On Critical Musicology*

Two Hundred Years of Pushkin, Volume I - 2021-12-28

From his earliest publications onwards Pushkin has been the source of inspiration, and imitation, for other

writers, as well as composers, painters and, more recently, film-makers. This book seeks to explore the different relationship his followers have sought with the 'founding father' of modern Russian culture. Pushkin's Secret: Russian Writers Reread and Rewrite Pushkin takes a variety of approaches. Some contributors to the collection trace the way Pushkin's works provided the template for the characters and stories which were produced in the first decades after his untimely death in 1837. Others reveal the impact the myths surrounding Pushkin's tragic life were used (and abused) by followers, as well as governments of various hues. Yet other studies explore the very precise ways Pushkin's successors used his texts as source material for their own works. 'Pushkin's Secret': Russian Writers Reread and Rewrite Pushkin offers a series of fascinating insights into the impact that Alexander Pushkin has had on Russian culture over the last 200 years. Pushkin's Secret: Russian Writers Reread and Rewrite Pushkin will be followed by two further volumes devoted to Pushkin within the SSLP series, Pushkin: Myth and Monument and Pushkin's Legacy.

Fletcherism, What It Is - Horace Fletcher 2008-03

Horace Fletcher, an American health-food advocate of the Victorian era, earned the nickname "The Great Masticator" through his advocacy that food needed to be chewed thirty-two times before being swallowed. At the age of 58, he conducted a series of strength and endurance experiments at the Yale Gymnasium versus college athletes which claimed that Fletcher could outperform these athletes. Fletcher also had a great interest in human excreta, believing that it evidenced one's true nutrition. He also advocated for a low-protein diet as a means of health and well-being. Through this 1913 volume Fletcher explains his theories of health and well-being and how, you too, can become a Fletcherite.

I Wonder - Marian Bantjes 2018-09-25

From typographic illustrator Marian Bantjes, *I Wonder* will make you think in new ways about art, design, beauty, and popular culture. This unique presentation features the elaborately crafted word pictures of Marian Bantjes, the most inventive and creative typographic illustrator of our time. Whether intricately hand-drawn or using computer illustration software, Bantjes's work crosses the boundaries of time, style, and technology. There is, however, another side to Bantjes's visual work: her thoughtful treatises on art, design, beauty, and popular culture that add a deeper dimension to the decorative nature of her best-known work. These reflections cover the cult of Santa, road-side advertising, photography and memory, the alphabet's letterforms, heraldry, and stars. Bantjes's writing style ranges from the playful to the

confrontational, but it is always imbued with perspicacity, insight, and a sense of fun. Intended to inspire creatives of any persuasion, this is more than a collection of ideas: Bantjes has meticulously illustrated every page of the book in her inimitable style to create an accessible work of art that is far greater than the sum of its parts. Quirky, poignant, astute, funny--this beautiful book presents a compelling collection of observations on visual culture and design. In Stefan Sagmeister's telling words, Bantjes's work is his "favorite example of beauty facilitating the communication of meaning." This paperback edition is expanded with a new essay from the author.

The Architect - David Greig 2014-01-22

"The most important playwright to have emerged north of the border in years." (Scotsman) *The Architect* charts the rise and fall of Leo Black, once an idealistic and idolised designer, whose magnificent visions are now crumbling, along with his family, in the light of grubby reality. "Provides convincing evidence of David Greig's confident transition from a dramatist of promise to one of stature." (Independent)

Alice Guy Blaché - Alison McMahan 2014-08-22

Alice Guy Blaché (1873-1968), the world's first woman filmmaker, was one of the key figures in the development of narrative film. From 1896 to 1920 she directed 400 films (including over 100 synchronized sound films), produced hundreds more, and was the first--and so far the only--woman to own and run her own studio plant (The Solax Studio in Fort Lee, NJ, 1910-1914). However, her role in film history was completely forgotten until her own memoirs were published in 1976. This new book tells her life story and fills in many gaps left by the memoirs. Guy Blaché's life and career mirrored momentous changes in the film industry, and the long time-span and sheer volume of her output makes her films a fertile territory for the application of new theories of cinema history, the development of film narrative, and feminist film theory. The book provides a close analysis of the one hundred Guy Blaché films that survive, and in the process rewrites early cinema history.

The Little House - Jean-Francois de Bastide 1996

Exemplary of an 18th-century literary genre that combined fictional narrative with didactic observations on art and architecture, *The Little House* tells the tale of a seduction in a maison de plaisance outside of Paris. The house itself - its architecture, gardens, artwork, and furnishings - is the central element of a story in which an impressionable woman mistakes good taste for good intentions, with unforeseen results. *The Little House*, long an underground classic among architectural historians and theorists, has never before been published in English. Anthony Vidler's insightful preface and Rodolphe el-Khoury's informative introduction, notes, and careful translation make the novella more accessible to the contemporary reader.

Road Safety Atlas - 1996

Rebel Daughters - Sara E. Melzer 1992-05-21

This interdisciplinary collection of essays examines the important and paradoxical relation between women and the French Revolution. Although the male leaders of the Revolution depended on the women's active militant participation, they denied to women the rights they helped to establish. At the same time that women were banned from the political sphere, "woman" was transformed into an allegorical figure which became the very symbol of (masculine) Liberty and Equality. This volume analyzes how the revolutionary process constructed a new gender system at the foundation of modern liberal culture.

The Indiscreet Letter - Eleanor Hallowell Abbott 2012-02-01

Creating the Built Environment - Leslie Holes 2003-09-02

We spend most of our lives in buildings and almost every building is unique. The purpose of this book is to explain what buildings are and to provide an integrated overview of how they are built and sustained. The book does not presume any specialist knowledge of buildings, seeking instead to explain why the different groups involved in designing, constructing, managing and occupying them follow certain procedures. It is particularly concerned with the generation and circulation of information between these groups. In taking this view, the book considers the recommendations of Sir Michael Latham's 1994 report *Constructing the Team* which called for better cohesion and communication between specialists in the construction industry. *A-Z. 1866-70* - Pierre Larousse 1874

The Pornographer - Restif de la Bretonne 2021-07-19

The Pornographer (*Le Pornographe*), written by Restif de la Bretonne and published in 1770 originally, is a novel, in epistolary format, that includes a serious proposal of rules for prostitution, at a state level, to address the problem of syphilis ravaging Europe at the time, as well as a counteractive to the degradation of public morality. To say that French author Nicolas Restif de la Bretonne (1734-1806) was ahead of his time is, for anyone who knows his work, - and they are few - so platitudinous it's not funny. The man had an uncanny ability to synthesize history as far back as the Greeks, and that of his own pre-Napoleonic era, and to project it onto our present, his future, as easily as a man casting a shadow on the ground at 3 pm. His ideas on the inequality of the classes, for instance, as a main cause of modern prostitution are both simple and brilliant. His strong words against the poor treatment of Native Americans immediately after the discovery of the New World, from which event syphilis was imported into Europe, is painfully relevant. His support of the working class (the "third estate") and women's rights over that of nobility, Church, and males anticipated ideas later encoded in the laws of Western societies, and the struggles today to keep said laws "honest." Would it surprise any one of his readers that he probably coined the term "Pornographer," over two hundred twenty-five years before the popularization of the Internet? With an eerily hyper-modern, politically correct, opinion on many things - he would have fit in most perfectly in this third decade of the twenty-first century, making many of us modern folk appear old-fashioned and dull - as perhaps no other 18th-century man of letters of France, or of any European country for that matter, could.

The Sylph - Claude Prosper Jolyot de Crébillon (film) 2021-10-16

The Sylph, by Claude Prosper Jolyot de Crébillon (film) is an English translation of a little gem of a short story and libertine work first published in 1730, from the French (*Le Sylphe, ou Songe de Madame de R*** écrit par elle-même à Madame de S****). Sylphs or Sylphids are, as most people do not know, elemental aery creatures, or spirits, not unlike faeries or nymphs even. Unlike nymphs, they come in both sexes, but in this genre-breaking short story they come in just one (vir). English-language readers will have encountered their very first sylph perhaps in Alexander Pope's *The Rape of the Lock*, written around the same time and published unfortunately on the wrong side of the Channel. The Sylph in this story by Crébillon (film) ("film" to distinguish him from his father) is a tad more libertine than that of the Lock (assuming the Lock qualifies, which it doesn't). Short, as all short stories are, it takes place entirely in the bedroom of the young, charming, and beautiful Countess, Madame de R***, as she prepares to go to sleep for the night and is visited by a... male Sylph, or so it seems. Rather like *The School of Women*, which also takes place almost entirely in a bedroom, or bedrooms, and which is also of the libertine genre - *The Sylph* is about as tame and aery as libertine stories get. Even more so than the Ecclesiastical Laurels. But light and entertaining, it

is also quite funny at times. The plot: a Sylph visits the Countess, who is not sure whether she is awake or dreaming, and seduces her in so many words. "...I had retired to my room; the night was warm. I went to bed in a modest fashion, for someone who believes she is alone, but would not have done so if I had thought someone was watching me."

Fortunio - Théophile Gautier 1890

Neither a Borrower - Richard Serrano 2002

In his studies of borrowing from distant poetic traditions, Serrano aims to uncover the heterogeneity of influences and intentions in the most canonical of texts: "Mallarmé" (1842-98), "Segalen" (1878-1919), "Wang Wei" (701-61), the "Classic of Poetry" (8th century BCE), "Buhārī" (821-97), and the "Qur'an" (7th century CE). Arguing, among other things that Mallarmé was really a Chinese poet, that ancient Chinese poets discovered the workings of film imagery, and that the Qur'an's apparently disjointed narrative is profoundly lyrical, Serrano intends to overturn accepted notions of how to read individual works. He brings methodologies from the study of one literature to bear on the reading of another.
