Global Trends 2040 - National Intelligence Council 2021-03
"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since

World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021)
Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly

influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

The History and Future of the World Trade Organization - Craig VanGrasstek 2013
The History and Future of the World Trade Organization is a comprehensive account of the economic, political and legal issues surrounding the creation of the WTO and its evolution. Fully

illustrated with colour and black-and-white photos dating back to the early days of trade negotiations, the publication reviews the WTO's achievements as well as the challenges faced by the organisation, and identifies the key questions that WTO members need to address in the future. The book describes the intellectual roots of the trading system, membership of the WTO and the growth of the Geneva trade community, trade negotiations and the development of coalitions among the membership, and the WTO's relations with other international organisations and civil society. Also covered are the organisation's robust dispute settlement rules, the launch and evolution of the Doha Round, the rise of regional trade agreements, and the leadership and management of the WTO.

Kant's Lectures on Ethics - Lara Denis 2015-04-23

This is the first book devoted to an examination of Kant's lectures on ethics, which provide a unique and revealing perspective on the development of his views. In fifteen newly commissioned essays, leading Kant scholars discuss four sets of student notes reflecting

different periods of Kant's career: those taken by Herder (1762-4), Collins (mid-1770s), Mrongovius (1784-5) and Vigilantius (1793-4). The essays cover a diverse range of topics, from the relation between Kant's lectures and the Baumgarten textbooks, to obligation, virtue, love, the highest good, freedom, the categorical imperative, moral motivation and religion. Together they provide the reader with a deeper and fuller understanding of the evolution of Kant's moral thought. The volume will be of interest to a range of readers in Kant studies, ethics, political philosophy, religious studies and the history of ideas.
