Century of Genocide - Samuel Totten 2004-05-15

Through powerful first-person accounts, scholarly analyses and historical data, Century of Genocide takes on the task of explaining how and why genocides have been perpetrated throughout the course of the twentieth century. The book assembles a group of international scholars to discuss the causes, results, and ramifications of these genocides: from the Armenians in the Ottoman Empire; to the Jews, Romani, and the mentally and physically handicapped during the Holocaust; and genocides in East Timor, Bangladesh, and Cambodia. The second edition has been fully updated and featu.

The Palace of Dreams - Ismail Kadare 1998

Translated from the Jusef Vrioni's French version of the Albanian original, this is the author's own vision of totalitarianism.

History in the Plural - Niklas Olsen 2012-01-30

Reinhart Koselleck (1923–2006) was one of most imposing and influential European intellectual historians in the twentieth century. Constantly probing and transgressing the boundaries of mainstream historical writing, he created numerous highly innovative approaches, absorbing influences from other academic disciplines as represented in the work of philosophers and political thinkers like Hans Georg Gadamer and Carl Schmitt and that of internationally renowned scholars such as Hayden White, Michel Foucault, and Quentin Skinner. An advocate of "grand theory," Koselleck was an inspiration to many scholars and helped move the discipline into new directions (such as conceptual history, theories of historical times and memory) and across disciplinary and national boundaries. He thus achieved a degree of international fame that was unusual for a German historian after 1945. This book not only presents the life and work of a "great thinker" and European intellectual, it also contributes to our understanding of complex theoretical and methodological issues in the cultural sciences and to our knowledge of the history of political, historical, and cultural thought in Germany from the 1950s to the present.

The International status of education about the Holocaust - Carrier, Peter 2015-01-14

How do schools worldwide treat the Holocaust as a subject? In which countries does the Holocaust form part of classroom teaching? Are representations of the Holocaust always accurate, balanced and unprejudiced in curricula and textbooks? This study, carried out by UNESCO and the Georg Eckert Institute for International Textbook Research, compares for the first time representations of the Holocaust in school textbooks and national curricula. Drawing on data which includes countries in which there exists no or little information about representations of the Holocaust, the study shows where the Holocaust is established in official guidelines, and contains a close textbook study, focusing on the comprehensiveness and accuracy of representations and historical narratives. The book highlights evolving practices worldwide and thus provides education stakeholders with comprehensive documentation about current trends in curricula directives and textbook representations of the Holocaust. It further formulates recommendations that will help policy-makers provide the educational means by which pupils may develop Holocaust literacy.

Ethics in Public Service for the New Millennium - Richard Chapman 2019-07-12

This title was first published in 2000: The focus of this analysis is that of moral standards in public service, with special attention to the role(s) of officials. It presents discussion of some of the issues that seem to the contributors to be of pressing importance and that seem to have relevance for public service in the new millennium. It concentrates in particular on public officials, and the constraints imposed on them by the political environment in liberal democracies.

War and Genocide - Doris L. Bergen 2009-02-16

In examining one of the defining events of the twentieth century, Doris L. Bergen situates the Holocaust in its historical, political, social, cultural, and military contexts. Unlike many other treatments of the Holocaust, the revised, second edition of War and Genocide discusses not only the persecution of the Jews, but also other segments of society victimized by the Nazis: gypsies, homosexuals, Poles, Soviet POWs, the handicapped, and other groups deemed undesirable. In clear and eloquent prose, Bergen explores the two interconnected goals that drove the Nazi German program of conquest and genocide—purification of the so-called Aryan race and expansion of its living space—and discusses how these goals affected the course of World War II. Including first hand accounts from perpetrators, victims, and eyewitnesses, the book is immediate, human, and eminently readable.

Digital Logic - John M. Yarbrough 1997

DIGITAL LOGIC offers the right balance of classical and up-to-date treatment of combinational and sequential logic design for a first digital logic design class. The author provides a thorough explanation of the design process, including completely worked examples beginning with simple examples and going on to problems of increasing complexity. This text contains PLD (Programmable Logic Design) coverage. Chapter 9 develops complete, worked EPROM, PLA, and EPLD design examples. The problems are developed in Chapter 7 as standard designs using SSI and MSI devices so that your students can see the difference between the two approaches.

Perpetrators Victims Bystanders - Raul Hilberg 1993-09-15

The man the New York Times has called "the preeminent scholar of the Holocaust" tells the stories of those who caused, experienced, and witnessed the great human catastrophe.

The Siege - Ismail Kadare 2010-02-12

From Ismail Kadare, winner of the inaugural Man Booker International Prize - a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie - the stunning new translation of one of his major works. In the

early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has fallen. The Siege tells the enthralling story of the weeks and months that follow - of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, The Siege is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.

Toxoplasmosis - Olgica Djurković Djaković 2012

A ubiquitous organism able to infect all mammals and birds, which has been estimated to infect one third of the global human population, Toxoplasma gondii is the most successful parasite on Earth, and toxoplasmosis a major zoonotic disease. A current approach to this zoonosis is the "one health" concept, based on the understanding that a disease occurring between animals and man in a specific environment can only be dealt with at the interface of all "players" involved. This book, composed of a series of articles which integrate human and animal data on toxoplasmosis, by authors from all over the world, offers its readers a view on the current research interests and achievements.

The Outsider - Albert Camus 1961

When a young Algerian named Meursault kills a man, his subsequent imprisonment and trial are puzzling and absurd. The apparently amoral Meursault—who puts little stock in ideas like love and God—seems to be on trial less for his murderous actions, and more for what the authorities believe is his deficient character.

Handbook of research on curriculum - Philip W. Jackson 1992

Queen of the Owls - Barbara Linn Probst 2020-04-07

A chance meeting with a charismatic photographer will forever change Elizabeth's life. Until she met Richard, Elizabeth's relationship with Georgia O'Keeffe and her little-known Hawaii paintings was purely academic. Now it's personal. Richard tells Elizabeth that the only way she can truly understand O'Keeffe isn't with her mind—it's by getting into O'Keeffe's skin and reenacting her famous nude photos. In the intimacy of Richard's studio, Elizabeth experiences a new, intoxicating abandon and fullness. It never occurs to her that the photographs might be made public, especially without her consent. Desperate to avoid exposure—she's a rising star in the academic world and the mother of young children—Elizabeth demands that Richard dismantle the exhibit. But he refuses. The pictures are his art. His property, not hers. As word of the photos spreads, Elizabeth unwittingly becomes a feminist heroine to her students, who misunderstand her motives in posing. To the university, however, her actions are a public scandal. To her

husband, they're a public humiliation. Yet Richard has reawakened an awareness that's haunted Elizabeth since she was a child—the truth that cerebral knowledge will never be enough. Now she must face the question: How much is she willing to risk to be truly seen and known?

CALL Environments - Joy Egbert 2007-01-01

Improving Human Learning in the Classroom - George R. Taylor 2008-10-03

Improving Human Learning in the Classroom provides a functional and realistic approach to facilitate learning through a demonstration of commonalities between the various theories of learning. Designed to assist educators in eliciting students' prior knowledge, providing feedback, transfer of knowledge, and promoting self-assessment, Taylor and MacKenney provide proven strategies for infusing various learning theories into a curriculum, guiding educators to find their own strategies for promoting learning in the classroom. Both quantitative and qualitative research methods investigate learning theories and reforms in education. Quantitative data sources build the theoretical framework for educating the student, as well as developing strategies for closing the achievement gap. Taylor and MacKenney fuse personal experiences with solid strategies for human learning.

Macedonia; Its Races and Their Future - Henry Noel Brailsford 1906

Wealth And Poverty Of Nations - David S. Landes 2015-04-20

The history of nations is a history of haves and have-nots, and as we approach the millennium, the gap between rich and poor countries is widening. In this engrossing and important new work, eminent historian David Landes explores the complex, fascinating and often startling causes of the wealth and poverty of nations. The answers are found not only in the large forces at work in economies: geography, religion, the broad swings of politics, but also in the small surprising details. In Europe, the invention of spectacles doubled the working life of skilled craftsmen, and played a prominent role in the creation of articulated machines, and in China, the failure to adopt the clock fundamentally hindered economic development. The relief of poverty is vital to the survival of us all. As David Landes brilliantly shows, the key to future success lies in understanding the lessons the past has to teach us - lessons uniquely imparted in this groundbreaking and vital book which exemplifies narrative history at its best.

As the Witnesses Fall Silent: 21st Century Holocaust Education in Curriculum, Policy and Practice - Zehavit Gross 2015-03-16

This volume represents the most comprehensive collection ever produced of empirical research on Holocaust education around the world. It comes at a critical time, as the world observes the 70th anniversary of the liberation of Auschwitz. We are now at a turning point, as the generations that witnessed and survived the Shoah are slowly passing on. Governments are charged with ensuring that this defining event of the 20th century takes its rightful place in the schooling and the historical consciousness of their peoples. The policies and practices of Holocaust education around the world are as diverse as the countries that grapple with its history and its meaning. Educators around the globe struggle to reconcile national histories and memories with the international realities of the Holocaust and its implications for the present. These efforts take place at a time when scholarship about the Holocaust itself has made great strides. In this book, these issues are framed by some of the leading voices in the field, including Elie Wiesel and Yehuda Bauer, and then explored by many distinguished scholars who represent a wide range of expertise. Holocaust education is of such significance, so rich in meaning, so powerful in content, and so diverse in practice that the need for extensive, high-quality empirical research is critical. This book provides exactly that.

The Despotate of Epiros 1267-1479 - Donald M. Nicol 1984

The district of Epiros in north-western Greece became an independent province following the Fourth

Crusade and the dismemberment of the Byzantine Empire by the Latins in 1204. It retained its independence despite the recovery of Constantinople by the Greeks in 1261. Each of its rulers acquired the Byzantine titles of Despot, from which the term Despotate was coined to describe their territory. They preserved their autonomy partly by seeking support from their foreign neighbours in Italy. The fortunes of Epiros were thus affected by the expansionist plans of the Angevin kings of Naples and the commercial interests of Venice. Until 1318 it was governed by direct descendants of its Byzantine founder. Thereafter it was taken over first by the Italian family of Orsini, then conquered by the Serbians, infiltrated by the Albanians, and appropriated by an Italian adventurer, Carlo Tocco. Like the rest of Byzantium and eastern Europe it was ultimately absorbed into the Ottoman Empire in the fifteenth century. The Despotate of Epiros illuminates part of Byzantine history and of the history of Greece in the Middle Ages.

How All Teachers Can Support Citizenship and Human Rights Education - Peter Brett 2009-01-01

This publication sets out the core competences needed by teachers to put democratic citizenship and human rights into practice in the classroom, throughout the school and in the wider community. It is intended for all teachers, not only specialists but teachers in all subject areas, and teacher educators working in higher-education institutions or other settings, both in pre- and in-service training. Some 15 competences are presented and grouped into four clusters. Each cluster of competences corresponds to one chapter, within which the competences are described in detail and exemplified. The reader will find progression grids and suggested developmental activities for each competence: these grids, featuring focusing, developing, established and advanced practice, aim to help teachers and teacher educators determine the level to which their professional practice corresponds, and thus identify specific and practical improvements upon which they can focus.

Teaching and the Case Method - Carl Roland Christensen 1987

Teaching and the Case Method delves into the special role of teacher and students in the case method learning process. Schools that want to use the case method more effectively can use this book to teach groups of faculty how to apply case method techniques. For the first time, too, a book about case method teaching attempts to show how the method can be applied in a liberal arts setting. A liberal arts module in the book presents an innovative program for instructors who want to experiment with discussion teaching in traditional arts and science areas. The book focuses on a wide range of knotty problems faced by most instructors, experienced or new, creating an opportunity for them to learn from each other. Its main purpose is to provide a rich opportunity for both professional school and liberal arts instructors to develop their own discussion leadership skills, and to further the process of learning for both themselves and their students. Kanuni i Lekë Dukagjinit - Lekë Dukagjini 1989

"THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg." "The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine Zeitung. "The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice." "The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life."--Ismail Kadare, Albanian writer.
