Buyology - Martin Lindstrom
2010-02-02

NEW YORK TIMES
BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all

around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today’s consumer that will captivate anyone who’s been seduced—or turned off—by marketers’ relentless attempts to win our loyalty, our money, and our minds.

**Recreation as a
Developmental Experience:
Theory Practice Research -**

Lawrence R. Allen 2011-07-26

It's not all "fun and games." A growing body of research suggests that recreation activities can be powerful development contexts when they are properly framed and intentionally designed. This volume highlights much of that research, and the articles that follow provide ample evidence that well-framed recreation activities and contexts can provide a range of positive developmental outcomes.

Editors Lawrence R. Allen and Robert J. Barcelona draw on their own work in human and youth development and have assembled contributing authors who explore the important of meaningful recreation and leisure experiences in the lives of youth and the value of recreation from a developmental perspective. Chapters focus on the developmental potential of

specific recreation contexts and settings and provide research and evidence-based strategies outlining the activities that best promote positive youth development. Finally, the volume demonstrates how recreation is being used to strengthen individual and community assets and its role as a contributor in addressing pressing social issues. This is the 130th volume of New Directions for Youth Development, the Jossey-Bass quarterly report series dedicated to bringing together everyone concerned with helping young people, including scholars, practitioners, and people from different disciplines and professions. The result is a unique resource presenting thoughtful, multi-faceted approaches to helping our youth develop into responsible, stable, well-rounded citizens.
