## **War Diaries** - Jean-Paul Sartre 1999

During the phony war that preceded the invasion of France, between late 1939 and the summer of 1940, the young Jean-Paul Sartre was stationed in his native Alsace as part of a meteorological unit. He used his considerable periods of spare time, between mundane duties like watching weather balloons, to make a series of notes on philosophy, literature, politics, history and autobiography that anticipate the themes of his later masterpieces, and often surpass them in literary verve and directness. These War Diaries form a portrait of Sartre in his most intense and brilliant phase. With them the twentieth century's most remarkable and public philosopher has provided us with a fitting posthumous monument to his honest and creativity.

Experiments in Ethics - Kwame Anthony Appiah 2010-03-30

In the past few decades, scientists of human nature—including experimental and cognitive psychologists, neuroscientists, evolutionary theorists, and behavioral economists—have explored the way we arrive at moral judgments. They have called into question commonplaces about character and offered troubling explanations for various moral intuitions. Research like this may help explain what, in fact, we do and feel. But can it tell us what we ought to do or feel? In *Experiments in Ethics*, the philosopher Kwame Anthony Appiah explores how the new empirical moral psychology relates to the age-old project of philosophical ethics. Some moral theorists hold that the realm of morality must be

autonomous of the sciences; others maintain that science undermines the authority of moral reasons. Appiah elaborates a vision of naturalism that resists both temptations. He traces an intellectual genealogy of the burgeoning discipline of "experimental philosophy," provides a balanced, lucid account of the work being done in this controversial and increasingly influential field, and offers a fresh way of thinking about ethics in the classical tradition. Appiah urges that the relation between empirical research and morality, now so often antagonistic, should be seen in terms of dialogue, not contest. And he shows how experimental philosophy, far from being something new, is actually as old as philosophy itself. Beyond illuminating debates about the connection between psychology and ethics, intuition and theory, his book helps us to rethink the very nature of the philosophical enterprise.

*Coral Glynn* - Peter Cameron 2012-02-28

Coral Glynn arrives at Hart House, an isolated manse in the English countryside, early in the very wet spring of 1950, to nurse the elderly Mrs. Hart, who is dying of cancer. Hart House is also inhabited by Mrs. Prence, the perpetually disgruntled housekeeper, and Major Clement Hart, Mrs. Hart's war-ravaged son, who is struggling to come to terms with his latent homosexuality. When a child's game goes violently awry in the woods surrounding Hart House, a great shadow—love, perhaps—descends upon its inhabitants. Like the misguided child's play, other seemingly random events—a torn dress, a missing ring, a lost letter—propel Coral and Clement into the dark thicket of marriage. A period novel observed through a refreshingly gimlet eye, *Coral Glynn* explores how quickly need and desire can blossom into love, and just as quickly transform into something less categorical. Borrowing from themes and characters prevalent in the work of mid-twentieth-century British women writers, Peter Cameron examines how we live and how we love—with his customary empathy and wit.

*The New Rules of Retail* - Robin Lewis 2014-08-12

In *The New Rules of Retail*, industry gurus Robin Lewis and Michael Dart explained how unprecedented consumer power, enabled by technology and globalization, is revolutionizing retail. They warned that survival in these dynamic times called for a business model based on three distinct competencies: preemptive, perpetual distribution; a neurological customer connection; and total control of the value chain. In the years since that book published, many of their predictions have come true. Now, they revisit timeless case studies like Ralph Lauren and Sears, as well as new additions like Trader Joe's, Lululemon, and Warby Parker, to assess how retailers must continue to evolve in the era of e-commerce, data mining, and tiered distribution. They also identify the five current trends that are currently driving consumer demand, including technology integration and channel consolidation, as exemplified by Jeff Bezos at Amazon. This is a fully revised and updated guide from two proven retail prognosticators.

**The Ice Queen** - Nele Neuhaus 2015-01-13

The body of 92-year-old Jossi Goldberg, Holocaust survivor and American citizen, is found shot to death execution style in his house near Frankfurt. A five-digit number is scrawled in blood at the murder scene.

The autopsy reveals an old and unsuccessfully covered tattoo on the corpse's arm—a blood type marker once used by Hitler's SS. Pia Kirchhoff and Oliver Bodenstein are faced with a riddle. Was the old man not Jewish after all? Who was he, really? Two more, similar murders happen—one of a wheelchair-bound old lady in a nursing home, and one of a man with a cellar filled with Nazi paraphernalia—and slowly the connections between the victims becomes evident: All of them were lifelong friends with Vera von Kaltensee, baroness, well-respected philanthropist, and head of an old, rich family that she rules with an iron fist. Pia and Oliver follow the trail, which leads them all the way back to the end of World War II and the area of Poland that then belonged to East Prussia. No one is who they claim to be, and things only begin to make sense when the two investigators realize what the bloody number stands for, and uncover an old diary and an eyewitness who is finally willing to come forward. Nele Neuhaus's *The Ice Queen* is a character- and plot-driven mystery about revenge, power, and long-forgotten and covered up secrets from a time in German history that still affects the present.

**A Sense of the Beginning** - Norbert Gstrein 2017-10-17

A poignant novel of political-religious awakening by one of Germany's literary stars An anonymous phone call, an unattended bag discovered in the station of a small Austrian town, a piece of paper saying, "Repent!" and "Next time it will be for real!" A C.C.T.V. image of a young man. What was it that made the teacher think it was his old student, Daniel? Ten years earlier Daniel had spent time with the teacher in his remote house by the river. The town had talked. Anton had recently returned from two years teaching in Istanbul - he was unsettled, subversive,

solitary. Daniel was on the brink of adulthood - idealistic, unrequitedly in love with Judith, vulnerable to influence. Those summer weeks by the river were an idyll. But did they also sow the seeds of Daniel's later obsessiveness, his biblical attitudes, his political dogmatism? As the bomb threat excites the community with all the tension of a witch hunt, and Anton himself becomes a focus for suspicion and gossip, he anatomises his memories of the preceding decade. What went wrong for Daniel, and could he have stopped it?
