One Second After - Die Welt ohne Strom - William R. Forstchen 2019

Der US-Bestseller. Was wäre, wenn jemand vorhätte, die USA anzugreifen? Wäre es da nicht strategisch klug, dem Land der unbegrenzten Möglichkeiten zunächst den Schutz durch die überlegene Technologie zu rauben? Was wäre, wenn es eine Waffe gäbe, die alles Elektronische ausschalten könnte? Diese Waffe könnte bereits in den Händen der Feinde sein ... John Matherson, Geschichtsprofessor und Ex-Colonel, lebt mit seiner Familie in einer friedlichen Kleinstadt in den Bergen North Carolinas. Doch die Idylle findet ein jähes Ende, als ein EMP die kompletten Vereinigten Staaten lahmlegt. Alle elektronischen Geräte - Autos, Computer, Radios, Flugzeuge - funktionieren von einer Sekunde auf die andere nicht mehr. Die Gesellschaft bricht erschreckend schnell zusammen, und John muss sich eine entscheidende Frage stellen: Wie weit würdest du gehen, um deine Familie und deine Heimat zu schützen? Dieser Roman ist eine Warnung. Eine Warnung vor einer Gefahr, die schon morgen Realität sein könnte: ein Angriff mit einer EMP-Waffe. Der elektromagnetische Impuls kann in einer Sekunde jede Form von Elektronik außer Gefecht setzen - und die Zivilisation, wie wir sie kennen, komplett ausradieren ... ONE SECOND AFTER wird fortgesetzt mit ONE YEAR AFTER und THE FINAL DAY. William B. Scott: 'Ein Weckruf, der einem das Blut in den Adern gefrieren lässt. Chaos und Tod sind nur einen Stromausfall entfernt ... Hortet sofort Essen,

Wasser, Medikamente und Batterien. Dieser Horror könnte schon morgen Wirklichkeit werden!' Harry Turtledove: 'Forstchen ist einer der faszinierendsten Autoren auf dem Gebiet der historischen Romane und der Military-SF.'

Booklist: 'Ein fesselndes, warnendes Beispiel.'

The Narratology of Observation - Martin Wagner 2018-11-05

How does literature evoke reality? This book takes cues from the history of scientific observation to provide a new approach to this

longstanding question of literary studies. It reconstructs a narrative technique of 'literary' observation in which reality appears by mimicking processes of visual perception, and it traces the functioning of this technique through a wide range of European fiction from the early 18th to the late 19th centuries.

A Map of Glass - Jane Urquhart 2010-10-22

Jane Urquhart's stunning new novel weaves two parallel stories, one set in contemporary Toronto and Prince Edward County, Ontario, the other in the nineteenth century on the northern shores of Lake Ontario. Sylvia Bradley was rescued from her parents' house by a doctor attracted to and challenged by her withdrawn ways. Their subsequent marriage has nourished her, but ultimately her husband's care has formed a kind of prison. When she meets Andrew Woodman, a historical geographer, her world changes. A year after Andrew's death, Sylvia makes an unlikely connection with Jerome McNaughton, a young Toronto artist whose discovery of Andrew's body on a small island at the mouth of the St. Lawrence River unlocks a secret in his own past. After Sylvia finds Jerome in Toronto, she shares with him the story of her unusual childhood and of her devastating and ecstatic affair with Andrew, a man whose life was irrevocably affected by the decisions of the past. At the breathtaking centre of the novel is the compelling tale of Andrew's forebears. We meet his great-great-grandfather, Joseph Woodman, whose ambitions brought him from England to the northeastern shores of Lake Ontario, during the days of the flourishing timber and shipbuilding industries; Joseph's practical, independent and isolated daughter, Annabel; and his son, Branwell, an innkeeper and a painter. It is Branwell's eventual liaison with an orphaned French-Canadian woman that begins the family's new generation and sets the stage for future events. A novel about loss and the transitory nature of place, *A Map of Glass* is vivid with evocative prose and haunting imagery — a lake of light on a wooden table; a hotel gradually buried by sand; a fully clothed man frozen in an iceberg; a blind woman tracing her fingers over a tactile map. Containing all of the elements for which Jane Urquhart's writing is celebrated, it stands as her richest, most accomplished novel to date.

One Year After - William R. Forstchen

2015-09-15

"Months before publication, William R. Forstchen's *One Second After* was cited on the floor of Congress as a book all Americans should read. Hundreds of thousands of people have read the tale. *One Year After* is the thrilling follow-up to that smash hit. The story picks up a year after *One Second After* ends, two years since the detonation of nuclear weapons above the United States brought America to its knees. After suffering starvation, war, and countless deaths, the survivors of Black Mountain, North Carolina, are beginning to piece back together the technologies they had once taken for granted: electricity, radio communications, and medications. They cling to the hope that a new national government is finally emerging. Then comes word that most of the young men and women of the community are to be drafted into an "Army of National Recovery" and sent to trouble spots hundreds of miles away. When town administrator John Matherson protests the draft, he's offered a deal: leave Black Mountain and enter national service, and the draft will be reduced. But the brutal suppression of a neighboring community under its new federal administrator and the troops accompanying him suggests that all is not as it should be with this burgeoning government"--

One Year After - Die Welt ohne Strom -

William R. Forstchen 2019

Die spektakuläre Fortsetzung des US-Bestsellers Ein Jahr nach den turbulenten Ereignissen von ONE SECOND AFTER: Ein EMP-Angriff hat sämtliche elektronischen Geräte unbrauchbar gemacht. Der Geschichtspräsident und Ex-Colonel John Matherson treibt in einer friedlichen Kleinstadt in North Carolina den Neuaufbau mit primitiven Mitteln voran. Die Ankunft eines Regierungsvertreters weckt die Hoffnung, dass eine starke Hand landesweit geordnete Verhältnisse schafft. Stattdessen werden junge Männer und Frauen mit übertriebener Härte für eine ominöse >Armee des Nationalen Wiederaufbaus William R. Forstchen (1950 in New Jersey geboren) ist ein US-amerikanischer Historiker und Autor von mehr als 40 Büchern. Er ist Experte für Militär- und Wissenschaftsgeschichte und den Amerikanischen Bürgerkrieg. Weitere Interessen sind Luftfahrt und Archäologie (er nahm an mehreren Expeditionen in die Mongolei, nach Rumänien und Russland teil). 2009 erschien der Roman One Second After, der für 12 Wochen die New York Times-Bestsellerliste anführte. Forstchen hatte dafür jahrelang analysiert, was in einer kleinen Stadt im Zuge eines EMP-Angriffs (Elektromagnetischer Impuls) tatsächlich passieren könnte. Der Sternenturm (Pillar to the Sky) erschien 2014. In diesem Wissenschaftsthiller wird ein Space Elevator geschildert, ein gewaltiger Turm, der bis über die geostationäre Umlaufbahn hinausführt. Forstchen hat diesen Roman mit Beratung der NASA und des Goddard Space Flight Center geschrieben, denn ein solches Megaprojekt ist tatsächlich in Planung und soll die Raumtransporte, Amerikas wirtschaftliche und technologische Bedeutung und die umweltfreundliche Energiegewinnung revolutionieren. Mit Tag des Zorns (Day of Wrath, 2014) schrieb Forstchen einen hochbrisanten Thriller, dessen Thema, der brutale Angriff der Terrormiliz IS auf die

westliche Welt, leider keine düstere Fiction ist, sondern erschreckend aktuell.

Strom fürs Hertz - Volker Gustedt 2022-12-02
Es ist merkwürdig. Unser modernes Leben ist ohne ein "Produkt" undenkbar, dass man weder sehen, riechen, hören oder schmecken kann: Elektrizität. Dieses kleine Buch soll dabei helfen, auf unterhaltsame Weise einen Einblick in die Welt der Stromerzeugung, des Stromtransportes und auch des Stromhandels zu bekommen. Darin wird keine einzige Formel und keine Gleichung verwendet. Versprochen! Stattdessen nutzt der Autor sportliche, soziologische, historische, religiöse und anekdotische Erklärungen für das Phänomen Strom.

Hyperion, Or the Hermit in Greece - Friedrich Hölderlin 2019-03-05

Friedrich Hölderlin's only novel, *Hyperion* (1797-99), is a fictional epistolary autobiography that juxtaposes narration with critical reflection. Returning to Greece after German exile, following his part in the abortive uprising against the occupying Turks (1770), and his failure as both a lover and a revolutionary, *Hyperion* assumes a hermitic existence, during which he writes his letters. Confronting and commenting on his own past, with all its joy and grief, the narrator undergoes a transformation that culminates in the realisation of his true vocation. Though Hölderlin is now established as a great lyric poet, recognition of his novel as a supreme achievement of European Romanticism has been belated in the Anglophone world. Incorporating the aesthetic evangelism that is a characteristic feature of the age, *Hyperion* preaches a message of redemption through beauty. The resolution of the contradictions and antinomies raised in the novel is found in the act of articulation itself. To a degree remarkable in a prose work of any length, what it means is inseparable from how it means. In this skilful translation, Gaskill conveys the beautiful music

and rhythms of Hölderlin's language to an English-speaking reader.

Transition - Iain M. Banks 2009-09-23
There is a world that hangs suspended between triumph and catastrophe, between the dismantling of the Wall and the fall of the Twin Towers, frozen in the shadow of suicide terrorism and global financial collapse. Such a world requires a firm hand and a guiding light. But does it need the Concern: an all-powerful organization with a malevolent presiding genius, pervasive influence and numberless invisible operatives in possession of extraordinary powers? Among those operatives are Temudjin Oh, of mysterious Mongolian origins, an unkillable assassin who journeys between the peaks of Nepal, a version of Victorian London and the dark palaces of Venice under snow; Adrian Cubbish, a restlessly greedy City trader; and a nameless, faceless state-sponsored torturer known only as the Philosopher, who moves between time zones with sinister ease. Then there are those who question the Concern: the bandit queen Mrs. Mulverhill, roaming the worlds recruiting rebels to her side; and Patient 8262, under sedation and feigning madness in a forgotten hospital ward, in hiding from a dirty past. There is a world that needs help; but whether it needs the Concern is a different matter.

One Second After - Die Welt ohne Strom - William R. Forstchen 2019-02-27

Valuing Nature - Robert Fish 2022-11-11
When a group of liberal arts students embark on a university assignment about the natural environment, no one could have quite prepared them for the bewildering array of questions and provocations to confront them in their task. What starts out as an earnest attempt to understand nature in the modern world, turns into a philosophical and practical tangle that only a good transdisciplinary education can provide. Can anyone save the day and actually start to value 'nature'? And if they can't, then what's stopping them? The idea of 'valuing nature' harmonises diverse areas of natural resource management and is an important dimension of scientific and practical work concerned with managing ecosystems and habitats for sustainability. This graphic book

takes the reader on an exploration of the issues that arise from this growing interest and concern in the valuation of nature. Set around the premise of a 'motley' group of undergraduates endeavouring to complete a university assignment on 'nature in the modern world', the book explores: the many and diverse meanings people assign to nature the different ways the relationship between people and nature might be characterised the many values systems people hold for the natural world the options and approaches society can deploy to manage it the extent to which we need entirely new economic systems to protect and sustain nature. This highly interdisciplinary book invites consideration of a range of philosophical and applied debates and questions. Written in an accessible style, it is an ideal undergraduate text in the fields of ecology, human and physical

geography, conservation science, environment, social science and spatial planning, as well as a general primer for graduate natural and social scientists embarking on interdisciplinary research in the natural resource management arena.

God in the Wasteland - David F. Wells 1994

In this sequel to the widely praised *No Place for Truth*, David Wells calls for the restoration of the church based on a fresh encounter with the transcendent God. By looking anew at the way God's transcendence and immanence have been taken captive by modern appetites, Wells argues convincingly for a reform of the evangelical world.

The Death of Virgil - Hermann Broch 1983

During the last eighteen hours of his life, the Roman poet, Virgil, debates destroying the manuscript of his poem, the *Aeneid*
