Proceedings of Italian Concrete Days 2018 - Marco di Prisco 2019-09-04

This book gathers the best peer-reviewed papers presented at the Italian Concrete Days national conference, held in Lecco, Italy, on June 14-15, 2018. The conference topics encompass the aspects of design, execution, rehabilitation and control of concrete structures, with particular reference to theory and modeling, applications and realizations, materials and investigations, technology and construction techniques. The contributions amply demonstrate that today's structural concrete applications concern not only new constructions, but more and more rehabilitation, conservation, strengthening and seismic upgrading of existing premises, and that requirements cover new aspects within the frame of sustainability, including environmental friendliness, durability, adaptability and reuse of works and / or materials. As such the book represents an invaluable, up-to-the-minute tool, providing an essential overview of structural concrete, as well as all new materials with cementitious matrices.

This book presents select proceedings of the International Conference on Advances in Civil Engineering (ACE 2020). The book examines the recent advancements in construction management, construction materials, environmental engineering, geotechnical engineering, transportation engineering, water resource engineering, and structural engineering. The topics covered include sustainable construction process and materials, smart infrastructures, green building technology, global environmental change and ecosystem management, theoretical and analytical solutions for foundation engineering, smart transportation systems and policy, GIS applications in water resource management, structural analysis for blast and impact resistance, and soft computing techniques in civil engineering. The book will be useful for researchers and professionals in the field of civil engineering.

Bibliographia Aethiopica II - Hans Wilhelm Locket 1998

Erstmals wird hier die Fülle der englischsprachigen Athiopienliteratur geordnet dargeboten. In 100 Sections führt der Autor alle für die wissenschaftliche Beschäftigung mit Athiopien wichtigen Buch- und Zeitschriftenbeiträge zum Beispiel zur "History of Research", "Archaeology", "Religion", aber auch Fragen der "Sociology", "Agriculture", "Zoology" und "Medical Sciences" auf. Wie im Falle der deutschsprachigen Literatur ("Bibliographia Aethiopica: Die athiopienkundliche Literatur des deutschsprachigen Raumes" = Aethiopistische Forschungen 9 [1982]) berücksichtigt der Autor auch alle ihm zugänglichen Besprechungen, womit bei einer Aufnahme von mehr als 24.000 Titeln eine Art "Bibliographic Encyclopedia" entstanden ist. 2019 International Bamboo Construction Competition - Kewei Liu 2022

This volume builds upon the 2019 International Bamboo Construction Competition (IBCC 2019) from the Concepts to the Realized Pavilions. Several designed projects are described, and particular attention is devoted to the realized prototypes. It also presents the Bamboo Eye, an important example of architecture realized by INBAR for the 2019 Beijing Horticultural Expo. As such, the volume provides an overview of the use of bamboo poles and engineered bamboo products for temporary and normal constructions, and represents a compact review of the applications of bamboo poles and/or engineered bamboo products in the construction industry. This book will be of interest for researchers, architects and structural engineers in field of bamboo constructions.

Reinforced Concrete - James Grierson MacGregor 1997

Based on the 1995 edition of the American Concrete Institute Building Code, this text explains the theory and practice of reinforced concrete design in a systematic and clear fashion, with an abundance of step-by-step worked examples, illustrations, and photographs. The focus is on preparing students to make the many judgment decisions required in reinforced concrete design, and reflects the author's experience as both a teacher of reinforced concrete design and as a member of various code committees. This edition provides new, revised and expanded coverage of the following topics: core testing and durability; shrinkage and creep; bases the maximum steel ratio and the value of the factor on Appendix B of ACI318-95; composite concrete beams; strut-and-tie models; dapped ends and T-beam flanges. It also expands the discussion of STMs and adds new examples in SI units.

IFLA Cataloguing Principles: Steps towards an International Cataloguing Code, 5 / IFLA Principes de Catalogage: Pas vers un code international de catalogage, 5./ IFLA Princípios de Catalogação: Passos a fazer um Código de Catalogação Internacional, 5 - Barbara B. Tillett 2008-12-18

Volume 35 presents the final stage in the development of an international set of principles that will guide the development of cataloguing codes worldwide. It is the report of the fifth and final meeting of the IME ICC. The series of meetings began in 2003. This volume contains information in English, French, and Portuguese where possible. The draft Statement of International Cataloguing Principles included here reflects the votes of agreement from all participants of the IME ICC1-5 for cataloguing codes worldwide.

A Declaration and Constitution for a Free Society - Brian P. Simpson 2021-02-25

What are individual rights? What is freedom? How are they related to each other? Why are they so crucial to human life? How do you protect them? These are some of the questions that A Declaration and Constitution for a Free Society answers. The book uses Objectivist philosophy—the philosophy of Ayn Rand—to analyze subjective, intrinsic, and objective theories of rights and show why rights and freedom are objective necessities of human life. This knowledge is then used to make changes to the Declaration of Independence and U.S. Constitution. Through these changes, the book shows the fundamental legal requirements of a free society and why we should create such a society. It demonstrates why a free society is morally, politically, and economically beneficial to human beings.

Land Rights and Expropriation in Ethiopia - Daniel W. Ambaye 2015-02-13

This thesis provides a new approach to the Ethiopian Land Law debate. The basic argument made in this thesis is that even if the Ethiopian Constitution provides and guarantees common ownership of land (together with the state) to the people, this right has not been fully realized whether in terms of land accessibility, enjoyability, and payment of fair compensation in the event of expropriation. Expropriation is an inherent power of the state to acquire land for public purpose activities.

It is an important development tool in a country such as Ethiopia where expropriation remains the only method to acquire land. Furthermore, the two preconditions of payment of fair compensation and existence of public purpose justifications are not strictly followed in Ethiopia. The state remains the sole beneficiary of the process by capturing the full profit of land value, while paying inadequate compensation to those who cede their land by expropriation. Secondly, the broader public purpose power of the state in expropriating the land for unlimited activities puts the property owners under imminent risk of expropriation.

Advances of Science and Technology - Mulugeta Admasu Delele 2021

This two-volume set constitutes the refereed post-conference proceedings of the 8th International Conference on Advancement of Science and Technology, ICAST 2020, which took place in Bahir Dar, Ethiopia, in October 2020. The 74 revised full papers were carefully reviewed and selected from more than 200 submissions of which 157 were sent out for peer review. The papers present economic and technologic developments in modern societies in 6 tracks: Chemical, food and bio-process engineering; Electrical and computer engineering; IT, computer science and software engineering; Civil, water resources, and environmental engineering; Mechanical and industrial engineering; Material science and engineering.

The Oxford Handbook of the Ethiopian Economy - Fantu Cheru 2019-01-10

From a war-torn and famine-plagued country at the beginning of the 1990s, Ethiopia is today emerging as one of the fastest-growing economies in Africa. Growth in Ethiopia has surpassed that of every other sub-Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years. The government has set its eyes on transforming the country into a middle-income country by 2025, and into a leading manufacturing hub in Africa. The Oxford Handbook of the Ethiopian Economy studies this country's unique model of development, where the state plays a central role, and where a successful industrialization drive has challenged the long-held erroneous assumption that industrial policy will never work in poor African countries. While much of the volume is focused on post-1991 economic development policy and strategy, the analysis is set against the background of the long history of Ethiopia, and more specifically on the Imperial period that ended in 1974, the socialist development experiment of the Derg regime between 1974 and 1991, and the policies and strategies of the current EPRDF government that assumed power in 1991. Including a range of contributions from both academic and professional standpoints, this volume is a key reference work on the economy of Ethiopia.

International Directory of Building Research Information and Development Organizations - International Council for Building Research, Studies and Documentation 2006-01-16

Every entry follows a standard pattern: after the address and telephone number of the institution there is a brief description of its history and financial support, followed by the names of the senior staff, total number of staff, the institution's structure and services, its main research programmes and a list of its publications. For this new edition a subject index has been added, allowing the reader to identify centres of research activity on individual construction topics throughout the world. The world-wide investment in construction industry research is enormous. This unique directory is a guidebook to that investment which will enable its readers to isolate sources of advice on practical problems, information on national standards and requirements and potential research

collaborators.

Digest of Ethiopia's National Policies, Strategies and Programs -

Yamāḥbarāwi ṭenāt madrak (Ethiopia) 2008

Having just emerged from a prolonged civil war and faced with the urgent tasks of establishing political stability and reinvigorating an economy in tatters, the Transitional Government of Ethiopia (1991-1995) had to set a new direction for the economic reconstruction and social rehabilitation of the war-torn and poverty-ridden country. During the Transitional Period a spate of new policies and strategies defining the development priorities, goals and implementation instruments of the new regime led by the EPRDF was introduced. This work is a synthesis of various sectoral policies and an attempt to trace the genesis of the policies, highlight the continuities, significant departures and other salient features. Each of the reviews in this digest briefly analyses the critical elements of the policies, identifies major gaps in the conceptualisation of the policy as well as the achievements registered and the challenges encountered in its implementation. The authors also try to identify the outstanding issues to be addressed by policymakers and suggest remedies. The policy reviews have been grouped into three parts and presented under social, economic and governance sectors.

The Audacity Code: Coloring in Black Outside the Lines - Juanita Johnson 2021-05-21

Living beyond the boundaries of prescribed inferiority requires an attitude of audacity and a determined code of conduct. Still some African-Americans defy societal limitations, colored outside the lines, and built lines of achievement. The Audacity Code shines a spotlight on three of these disruptors including: * The little known African-American car manufacturer * The visionary African-American farmer who turned ninety cents into an agricultural empire * The pioneering African-American television chef and food ambassador. How for the first time, the foundational principles employed by these and other mavericks to do well for themselves and the world are revealed in The Audacity Code. The question is...are you willing to employ these principles in your life to color outside the lines of the status quo?

Ethiopia - Siegbert Uhlig 2017-10

ETHIOPIA is a compendium on Ethiopia and Northeast Africa for travellers, students, businessmen, people interested in Africa, policymakers and organisations. In this book 85 specialists from 15 countries write about the land of our fossil ancestor 'Lucy', about its rock-hewn churches and national parks, about the coexistence of Christians and Muslims, and about strange cultures, but also about contemporary developments and major challenges to the region. Across ten chapters they describe the land and people, its history, cultures, religions, society and politics, as well as recent issues and unique destinations, documented with tables, maps, further reading suggestions and photos.

Laying the Past to Rest - Mulugeta Gebrehiwot Berhe 2020

The Tigray People's Liberation Front (TPLF), founded as a small guerrilla movement in 1974, became the leading party in the Ethiopian People's Revolutionary Democratic Front (EPRDF). After decades of civil war, the EPRDF defeated the government in 1991, and has been the dominant party in Ethiopia ever since. Its political agenda of federalism, revolutionary democracy and a developmental state has been unique and controversial. Drawing on his own experience as a senior member of the TPLF/EPRDF leadership, and his unparalleled access to internal documentation, Mulugeta Gebrehiwot Berhe identifies the organizational, political and sociocultural factors that contributed to victory in the revolutionary war, particularly the Front's capacity for intellectual leadership. Charting its challenges and limitations, he analyses how the EPRDF managed the complex transition from a liberation movement into an established government. Finally, he evaluates the fate of the organization's revolutionary goals over its

subsequent quarter-century in power, assessing the strengths and weaknesses the party has bequeathed to the country. *Laying the Past to Rest* is a comprehensive and balanced analysis of the genesis, successes and failings of the EPRDF's state-building project in contemporary Ethiopia, from a uniquely authoritative observer.

Lessons of Informality - Felix Heisel 2016-05-24

Informal settlements made up of corrugated iron shacks and other materials are a ubiquitous feature in the megacities of Africa, Asia and Latin America. In response to the enormous influx of migrants from the countryside, the informal city experienced a phenomenal growth. While rightly criticized for their lack of hygiene and for their low-level living conditions, these shelters nevertheless provide planning strategies and possibly even a roadmap to a resilient city in an emerging territory. The unregistered economic activities associated with them proliferate in a similar way and basic urban services are increasingly provided informally. Examples of these economic phenomena are microloans, bottom-up insurance or professions such as the "Kuré-Yalew" (refuse collector), who acts as an "urban miner" and thus contributes a valuable service to the community by recycling materials.

Challenges and Opportunities for Inclusive Development in Ethiopia - Rahmato, Dessalegn 2019-03-25

As part of its on-going public dialogue program on progress in Ethiopia's development and public policy the Forum for Social Studies is undertaking a project of research and public dialogue on a number of selected topics on the theme of 'Prospects and Challenges for Inclusive and Participatory Development in Ethiopia'. The aim is to enable researchers and professionals to present evidence-based papers to stimulate debate and reflection. This first book in the program looks at the impact of development or lack of it, on specific social groups, namely women, young people and vulnerable groups that should be entitled to decent social care.
