OECD Principles for Integrity in Public Procurement - OECD 2009-03-24

The OECD Principles for Integrity in Public Procurement are a ground-breaking instrument that promotes good governance in the entire procurement cycle, from needs assessment to contract management.

Managing Conflict of Interest in the Public Sector A Toolkit - OECD 2005-08-30

This Toolkit provides non-technical, practical help to enable officials to recognise conflict of interest situations and help them to ensure that integrity and reputation are not compromised.

Mergers, Acquisitions, and Corporate Restructurings - Patrick A. Gaughan 2007-12-10

Modern restructuring techniques for a global business landscape Corporate restructurings are an indispensable tool in building a new generation of re-engineered companies with the power and resources to compete on a global playing field. Written from a practical and historical perspective, *Mergers, Acquisitions, and Corporate Restructurings*, Fourth Edition carefully analyzes the strategies and motives that inspire M&As, the laws and rules that govern the field, as well as the offensive and defensive techniques of hostile acquisitions. In this thoroughly revised Fourth Edition, author and business valuation expert Patrick Gaughan provides a fresh perspective on M&As in today's global business landscape, and how your company can reap the benefits from the various forms of restructurings available. Packed with the most up-to-date research, graphs, and case studies, *Mergers, Acquisitions, and Corporate Restructurings*, Fourth Edition explores: * Recent takeover trends including the role of private equity firms and hedge funds * Most effective offensive and defensive tactics in hostile bids * A review of the effect of shareholder wealth on a variety of takeover actions * Modern, historical, and global perspectives on the field * The various forms of downsizing including divestitures, spinoffs, and equity carve-outs * Bankruptcy as an effective restructuring technique * Latest developments in corporate governance * Pros and cons of joint ventures and strategic alliances * Primary methods used to value public and private companies

Commercial Dispute Resolution in China - Beijing Arbitration Commission 2022-11-14

In 2021, the COVID-19 pandemic continued to affect economic development. In addition, due to the

changing global situation, international competition was increasingly fierce. Under the circumstances of major changes and a pandemic unseen in a century, commercial dispute resolution in China is confronting new challenges, facing new changes and ushering in new developments. In the field of commercial arbitration, the promulgation of the Arbitration Law (Revision) (Draft for Comment) brought about many reforms to China's current arbitration system, aroused widespread attention and discussion in the industry, and boosted arbitration research and the arbitration legal system to new levels. Arbitration institutions, including the Beijing Arbitration Commission/Beijing International Arbitration Center (hereinafter referred to as the "BAC/BIAC"), have duly issued new rules according to the needs of case handling and pandemic prevention and control in order to guide new arbitration practices, and the highlights of China's judicial supervision and opening-up of arbitration are eye-catching. In the field of commercial mediation, the Supreme People's Court has continuously promoted the development of a "one-stop" diversified dispute resolution system to support international commercial mediation organizations in providing mediation services in free trade zones; the Shenzhen Intermediate People's Court has innovatively introduced third-party mediation organizations to participate in bankruptcy reconciliation; and practices in coordination between arbitration and mediation have been constantly enriched. Commercial mediation is playing an increasingly important role in alternative dispute resolution in China. In key professional fields, while actively responding to the impacts of the pandemic and focusing upon the resumption of work and production, legal construction and dispute resolution have also been developing. In the field of construction engineering, with the implementation of the Civil Code, new judicial interpretations of construction contracts have been formally implemented. The formal implementation of the Engineering Procurement Construction Contract for a Construction Project (Model Text) has boosted the continued streamlining of administration, delegation of power, improved regulations and upgraded services for construction projects in China and stimulated the vitality of market entities more powerfully. In the real estate field, enterprises continued to face market pressure, and defaults of large real estate enterprises occurred frequently. Properly solving disputes among the relevant market entities and promoting the transformation and upgrading of the industry have become hot issues of social concern. In the energy field, the global energy crisis coexists with climate issues and the booming fossil energy transition, new energy consumption has increased steadily and a unified national carbon trading market has been officially formed. In the financial field, the Beijing Financial Court has been established to enhance the professional level of financial adjudication, the property mortgage guarantee registration system has been continuously improved and the security investor protection mechanism has been steadily enhanced and upgraded. Disputes involving massive stakeholders were handled in a stable and orderly manner, and adjudication rules for asset management contracts have been constantly improved. In the investment field, laws and regulations on foreign investment such as Company Law of the People's Republic of China (Draft for Comment) has solicited public comments and the Measures for the Security Review of Foreign Investment have been amended; breakthroughs have been made in the personal bankruptcy system, which was first implemented in Shenzhen. In the international trade field, the Regional Comprehensive Economic Partnership Agreement (RCEP) has come into force, and the Anti-foreign Sanctions Law and relevant laws and regulations on export control have been introduced to deal with international disputes. In the intellectual property field, the revised Patent Law and Copyright Law have been formally implemented, and Chinese courts have

actively participated in the resolution of international intellectual property disputes by adjudicating standard essential patent (SEP) disputes and issuing anti-suit injunctions, generating greater influence. In the civil aviation field, the Civil Aviation Law has been revised and general aviation-related management specifications have been issued, improving China's civil aviation legal system. In the meantime, disputes caused by the pandemic have also become a hot issue in the industry. In the film, television and entertainment field, industry supervision remained strong, punishments for misbehaving actors and actresses have been continuously strengthened, and the digital transformation of the film, television and entertainment industry has been constantly deepened. As a result, the new type of entertainment disputes has also advanced the development of dispute resolution in the industry. The year of 2022 marks the tenth consecutive year that the BAC/BIAC has organized senior industry experts to compile the Commercial Dispute Resolution in China: An Annual Review and Preview (hereinafter referred to as "Annual Review and Preview"), which is published globally in both Chinese and English. Both the Annual Review and Preview and the Annual Summit on Commercial Dispute Resolution in China have become important windows for people from all circles at home and abroad to understand the development status of commercial dispute resolution in China, building important exchange and interaction platforms for professionals in the dispute resolution industry at home and abroad.

SME Policy Index: Western Balkans and Turkey 2019 Assessing the Implementation of the Small Business Act for Europe - OECD 2019-05-06

Robust SME sectors are critical to the prosperity of the six Western Balkan economies and Turkey, accounting for over 70% of those employed in the business sector and generating 65% of value added in these seven economies. Yet their potential remains untapped, as SMEs across the region grapple ...
Fundamental Principles in PPP Laws - Reinaldo Fioravanti 2019-05-07

Investment in infrastructure is, admittedly, one of the main forms of economic development. Traditionally, the Public Administration implements infrastructure projects committing taxpayers' money to finance them. For the past decades, demand for infrastructure has been growing steadily, but public funds for current and future needs are limited and the public finances of many governments have increasingly reached a point where long-term borrowing is not a ready option. In a recent study, GI Hub estimated the cumulative 'global infrastructure need' from 2015 to 2040, and the 'investment gap' for the period. US\$ 94 trillion would be needed in investment and the gap is US\$ 15 trillion. This has led the government to accept the growing importance of the private sector participation in the financing and management of infrastructure projects, so it began seeking alternative methods of procurement. One method whose applicability is increasing is the use of public-private partnerships (PPPs) to finance and/or manage infrastructure projects. In this regard, well-prepared infrastructure projects can generate high social rate of returns and improves well-being, whereas inadequate infrastructure represents a barrier to growth and improved quality of life and can lead to unsustainable financial burdens for the government, especially in developing countries. Although not all infrastructure is suitable to follow the PPP route, those policy-makers that choose to shift from public infrastructure financing to private partner have to consider the nature and motivations of long-term investors and the generation of value for money as well, that is, to align the interests of both the public and private sectors. With the participation of a private partner in well-prepared investment projects, there may be larger investments and the population's life quality improvement. Also, PPPs are a way to introduce private sector technology and innovation into providing better public services through innovative planning and design' and 'efficient project management. Building and maintaining infrastructure are essential for economic expansion and social development, if delivered efficiently and effectively, it can translate into economic growth. However, the world is not spending enough on infrastructure to catch up with technological changes, urbanization and shifting demographics. The Inter-American Bank (IDB) and the Global Infrastructure Hub (GIH) decided to analyze and carry out a research on the legal framework for PPPs in Latin America and the Caribbean Region to establish guidelines on PPP law leading practices.

Procurement of Works - 2000

These Standard Prequalification Documents serve as a guide for those wanting to prequalify to bid on large contracts for projects financed by the World Bank. Qualifying as a bidder is separate from the bid evaluation process. Before invitations to bid on large or especially complex works projects are issued, a

process of prequalification is required to select competent bidders. This document helps bidders through the prequalification process. To simplify presentation by applicants for prequalification, standard forms have been prepared for the submission of relevant information. Guidance notes and examples are provided for the implementing agency making the evaluation. Annexes give information about prequalification that are likely to be of interest to potential bidders on World Bank projects. NOTE: This replaces Standard Prequalification Document: Procurement of Works (September 1999), Stock no. 14601 (ISBN 0-8213-4601-6).

Finance - R.A. Jarrow 1995-12-15

Hardbound. The Handbook of Finance is a primary reference work for financial economics and financial modeling students, faculty and practitioners. The expository treatments are suitable for masters and PhD students, with discussions leading from first principles to current research, with reference to important research works in the area. The Handbook is intended to be a synopsis of the current state of various aspects of the theory of financial economics and its application to important financial problems. The coverage consists of thirty-three chapters written by leading experts in the field. The contributions are in two broad categories: capital markets and corporate finance.

OECD Economic Surveys: Czech Republic 2016 - OECD 2016-06-06

This 2016 OECD Economic Survey of the Czech Republic examines recent economic developments, policies and prospects. The special chapters cover: Fostering productivity for sustainable convergence; Public sector effectiveness.

The Battleship Builders - Ian Johnston 2013-04-15

The launch in 1906 of HMS Dreadnought, the world's first all-big-gun battleship, rendered all existing battle fleets obsolete while at the same time wiping out the Royal Navy's numerical advantage. Britain urgently needed to build an entirely new battle fleet of these larger, more complex and more costly vessels. In this she succeeded spectacularly: in little over a decade fifty such ships were completed, almost exactly

double what Germany achieved. This heroic achievement was made possible by the country's vast industrial nexus of shipbuilders, engine manufacturers, armament firms and specialist armor producers, whose contribution to the creation of the Grand Fleet is too often ignored.

Foreign Commerce Weekly - 1965

Networks in the Russian Market Economy - M. Lonkila 2010-11-17

A PDF version of this book is available for free in open access via the OAPEN Library platform, www.oapen.org. This book examines the significance of networks among the firms operative in the contemporary Russian software industry in the St. Petersburg region.

The Brief - 1993

Tender No Judgment - Elle St John 2017-03-03

Micah is broken, turned into a limping, scarred relic by war. He was honed as a killer and then discarded by those he saluted, forced into a life of solitude on his mountain. Sabrina is a bookworm who secretly wants her dashing prince to come and sweep her off her feet. But mostly she just meets toads who want to grope her and use her. She retreats to her little bookstore until one day a charming man walks into her life. She thinks he is the man she's been dreaming of, but instead of carrying her into the sunset, he leaves her for dead on a mountain. Micah rescues her, and their love quickly flourishes. But their bliss is interrupted when unforeseen international events test their bond and jeopardize their lives. They are soul mates, the only ones for each other. But is that enough to overcome these powerful, evil currents?

Bribery in Public Procurement Methods, Actors and Counter-Measures - OECD 2007-05-31

A ground-breaking report that throws new light on the shadowy mechanisms and patterns of bribery in public procurement, and offers insider expertise that governments and international organisations can use to improve their anti-corruption policies.

The Income Factory: An Investor's Guide to Consistent Lifetime Returns - Steven Bavaria 2020-02-28

The proven, all-weather investing strategy that delivers long-term, consistent returns The most common investing approach today—one that values “growth” over all else— can be ineffective and counterproductive for many investors, not to mention needlessly stressful. Now, one of Seeking Alpha's

most popular writers, Steven Bavaria, provides a groundbreaking alternative that will see you through all markets—up, down, and sideways. The Income Factory shows how to build an income stream that increases solidly and consistently—a result of re-investing and compounding the dividends. And the best part? This income stream actually grows faster during market downturns than during flat or rising market periods. The Income Factory sheds light on: • Why “high-yield” doesn't have to mean “high-risk” • How credit investments perform more predictably than equity investments • Why “junk” is a misnomer—and why high-yield debt is safer than most of the stocks investors own • How to grow your wealth steadily without following the markets obsessively Through Bavaria's strategy, cash income increases year after year at a predictable rate. For example, a 9% yielding portfolio doubles and re-doubles every 8 years. If you're in for the long haul, an Income Factory lets you achieve your goals and still sleep well at night. Investing does not have to be about picking specific horses and hoping they win the race. An Income Factory achieves its goals by essentially betting on horses to make it around the track and finish the race. Those are easier bets to win, and they don't require us to be glued to the financial news 24/7.

The Project Manager's Guide to Purchasing - Garth Ward 2008

This very practical guide describes the whole process of contracting for goods and services, from selecting tenderers to placing a contract. It details the key topics that are necessary for success, such as contract strategy, contract types, contract law and evaluating tenders. Whilst the book also addresses the project context in which purchasing takes place, the subject matter could equally be applied to any business context. The treatment of the subject assumes no prior knowledge but, at the same time, provides the experienced person with new, and sometimes unconventional, insights into the subject. The book includes personal experiences, cases and exercises in order to root the subject into the real world. The Project Manager's Guide to Purchasing has been structured so that the reader can choose the chapter topic areas that they wish to study in isolation. Where necessary references are provided to complement the individual chapters. Illustrations of key documents in the purchasing and contracting process are also provided.

[Documents in International Economic Law](#) - Christian J. Tams 2012-08-30

Bringing together all the most important treaties and materials in international trade law, investment law, and financial law, this book will be an invaluable resource to both students and practitioners of international economic law.

United States of America V. Hawpetoss - 1980
