## **Understanding Social Inequality** - Oxford 2016-10-07

Now in its third edition, *Understanding Social Inequality* examines the full scope of inequality in Canada today. The text's two-part structure introduces theories of class, gender, age, ethnicity, and race before examining case studies and examples demonstrating the consequences of inequality. This allows students to form their own conclusions about why social inequality remains prevalent and the potential actions that can be taken to eradicate it.

## **Bright Air Black** - David Vann Bright 2017-03-07

A “sensual, brutal . . . ambitious, dazzling, disturbing, and memorable” retelling of Jason and the Argonauts seen through the eyes of Medea (Financial Times). International bestselling and multi-prize-winning author David Vann transports readers to the Mediterranean and Black Sea, 3,250 years ago, for “[a] stunning depiction of one of mythology’s most complex characters” (The Australian). It is thirteenth century BC, and the Argo is bound for its epic return journey across the Black Sea from Persia’s Colchis with the valiant Jason, the equally heroic Argonauts, and the treasured symbol of kingship, the Golden Fleece. Aboard as well is Medea, semi-divine priestess, and a believer in power, not gods. Having fled her father, and butchered her brother, she is embarking on a conquest of her own. Rejected for her gender, Medea is hungry for revenge, and to right the egregious fate of being born a

woman in a world ruled by men. In *Bright Air Black*, “David Vann blow[s] away all the elegance and toga-clad politeness . . . around our idea of ancient Greece . . . to reveal the bare bones of the Archaic period in all their bloody, reeking nastiness (The Times, London), and to deliver a bracing alternative to the long-held notions of Medea as monster or sorceress. We witness Medea’s humanity, her Bronze Age roots and position in Greek society, her love affair with Jason, the cataclysmic repercussions of betrayal, and the drive of an impassioned woman—victim, survivor, and ultimately, agent of her own destiny. The most intimate and corporal version of Medea’s story ever told, *Bright Air Black* “a compelling study of human nature stripped to its most elemental” (The Guardian).

## **Iky's Bipolar World** - Randy Cassatt 2009-12

When the author began writing this book, it started out as a form of therapy. He found out that he had Manic-Depressive Disorder when he was forty years old. He became disabled because of it when he was forty-three years old. When he was born, he also had nerve deafness, so he

couldn't hear very well. This book is full of his personal experiences through the years, some fiction, and the combination of both. Many of these jokes he wrote while he was having manic episodes. He has always believed that laughter is the best medicine, and as his good friend A.J. said, Misery loves company. This book is dedicated to everyone who suffers from some form of mental illness or disability because of it. He has never tried to benefit from or use his disabilities to gain things. They are his assets, not liabilities, to carry on and prove that he is just as good a person as anyone else is. We have to face the fact that we live in a very cruel world today where lies, manipulation, cheating, stealing, harassment, and hostile environments are very commonplace. No matter how hopeless a situation looks, there is always hope.

**Social Assistance in Albania** - Harold Alderman 1998-01-01

Albania provides a small amount of social assistance to nearly 20% of its population through a system which allows a degree of community discretion in determining distribution. This study investigates the poverty targeting of this program. It indicates that relative to other safety net programs in low income countries, social assistance in Albania is fairly well targeted to the poor.

Buddhist and Taoist Systems Thinking - Josep M. Coll 2021-07-14

Buddhist and Taoist Systems Thinking explores a radical new conception of business and management. It is grounded on the reconnection of humans with nature as the new competitive advantage for living organizations and entrepreneurs that aspire to regenerate the economy and drive a positive impact on the planet, in the context of the Anthropocene. Organizations today struggle in finding a balance between maximizing profits and generating value for their stakeholders, the environment and the society at large. This happens in a paradigm shift characterized by unprecedented levels of exponential change and the emergence of disruptive technologies. Adaptability, thus, is becoming the new business imperative. How can, then, entrepreneurs and organizations constantly adapt and, at the same time, design the sustainable futures they'd like? This book uniquely explores the benefits

of applying Buddhist and Taoist Systems Thinking to sustainable management. Grounded in Taoist and Zen Buddhist philosophies, it offers a modern scientific perspective fundamentally based on the concepts of bio-logical adaptability and lifefulness amidst complexity and constant change. The book introduces the new concept of the Gaia organization as a living organism that consciously helps perpetuate the conditions for life on the planet. It is subject to the natural laws of transformation and the principles of oneness, emptiness, impermanence, balance, self-regulation and harmonization. Readers will find applied Eastern systems theories such as the Yin-Yang and the Five Elements operationalized through practical methodologies and tools such as T-Qualia and the Zen Business model. They are aimed at guiding Gaia organizations and entrepreneurs in leading sustainable transformations and qualifying economic growth. The book offers a vital toolkit for purpose-driven practitioners, management researchers, students, social entrepreneurs, evaluators and change-makers to reinvent, create and mindfully manage sustainable and agile organizations that drive systemic transformation.

*Light of the Northern Dancers* - Robin F. Gainey 2017-11-23

Fiery aristocrat, Eden Rose, uprooted from her native Scotland, has tended a foundering marriage and failing ranch at the corner of Crazy Woman Creek and the Powder River for a decade. Best friend, backwoods spitfire Maddie True, has her own woes a few miles away: widowed with a passel of young children, and caretaker to her addled father. Abandoned by her husband during the height of Wyoming Territory's worst drought in history, Eden depends on her inept brother, Aiden, to see her through the coming winter. But when he disappears into the wild Bighorn mountains, she shuns Maddie's fearful cautions, teaming with enigmatic Lakota holy man, Intah, to find her brother before the wicked snow holds them all hostage. "Light of the Northern

Dancers is a powerful novel of a woman's journey, thought-provoking and unsettling in its authenticity and unflinching honesty." — Susan Wiggs, NYT Bestselling Romance Author "Half of what happens to us may have reason, the rest is chaos. Robin F. Gainey's second novel, *Light of the Northern Dancers*, has this brand of existentialism. It's real and it doesn't let go!" — Tom Skerritt, Award Winning Actor, Writer, Director

**Differential Games in Economics and Management Science** -

Engelbert J. Dockner 2000-11-16

A comprehensive, self-contained survey of the theory and applications of differential games, one of the most commonly used tools for modelling and analysing economics and management problems which are characterised by both multiperiod and strategic decision making. Although no prior knowledge of game theory is required, a basic knowledge of linear algebra, ordinary differential equations, mathematical programming and probability theory is necessary. Part One presents the theory of differential games, starting with the basic concepts of game theory and going on to cover control theoretic models, Markovian equilibria with simultaneous play, differential games with hierarchical play, trigger strategy equilibria, differential games with special structures, and stochastic differential games. Part Two offers applications to capital accumulation games, industrial organization and oligopoly games, marketing, resources and environmental economics.
