*Managing Volunteers in Tourism* - Kirsten Holmes 2012-05-16

Recent years have seen an explosion in research on tourism volunteering. Volunteers are an essential part of tourism, whether they are volunteering in their local museum, at a sporting mega-event, as an airport ambassador, or travelling the global as a volunteer tourist. Managing Volunteers in Tourism reviews the latest research to highlight the key management issues and relate them to the tourism volunteering context. It includes previously under-researched forms of tourism volunteering such as meet-and-greeters, surf life-savers, conservation, festival, and information centre volunteers and volunTourists. The book develops through three distinct sections, the first of which begins by introducing the concept of volunteering and considering the variety of volunteer forms and settings within tourism. The next part picks up the organisational approach and examines volunteer program design and planning, volunteer motivation, recruitment and selection, training and development, reward and retention, and diversity management. The final part consists of ten case studies from leading international researchers and practitioners identifying best practice and key management challenges. Real-life examples and case studies throughout this book provide an in-depth examination of the challenges facing those managing tourism volunteers, making this book indispensable for current and future managers in the tourism industry.

*People People* - Scott Christopher 2013-05-08

People People Who They Are. Why They Win. How To Be One. If you've ever heard of someone described as "a real people person" and agreed, you no doubt immediately thought "Boy, we could use more people like that!" And you'd be right. There are truths that are universally acknowledged: a people person will smoothly, successfully engage in effective, pleasant human interactions. They are more likely to be promoted, respected, admired, complimented and appreciated than those who simply do not know how to thrive among humans. Simply put,

everyone could benefit from being a people person, but many just don't know how or don't know where to find the answers. Supported by interviews, case studies and sound research, People People will teach why being a people person even matters, what makes a people person, and how and where to be a people person. Scott Christopher is a nationally recognized author, speaker and corporate trainer. As co-author of the bestseller *The Levity Effect: Why It Pays to Lighten Up*, he has appeared on NBC's Today Show, CNBC, Fox News and in the New York Times, Washington Post, Newsweek, Wall Street Journal, Boston Globe, The Economist, ESPN the Magazine, Ladies Home Journal and many others. He lives in Salt Lake City, Utah.

**Lacan Noir** - David S Marriott 2021-07-02

This book explores how Jacques Lacan has influenced Black Studies from the 1950s to the present day, and in turn how a Black Studies framework challenges the topographies of Lacanianism in its understanding of race. David Marriott examines how a contemporary Black Studies perspective might respond to the psychoanalysis of race by taking advantage of the recent revitalization of Lacanianism in its speculative, metaphysical form. While the philosophical side of the debate makes a plea for a new universalism, this book proposes a Lacanian reassessment of the notion of race, a notion distinct from culture, language, religion, and identity. It argues that it is possible to re-establish the theoretical relation between capitalism, anti-blackness, and colonialism, by reassessing the links between Lacanian psychoanalysis and three main domains of black inquiry: mastery, knowledge, and embodiment. The book offers a strikingly original rereading of the place of Lacan in both Fanon Studies and Afro-pessimism. It will appeal to students and scholars of Black Studies, Cultural Studies, Critical Theory and Philosophy.

*Contested Extractivism, Society and the State* - Bettina Engels 2017-02-21

This book empirically discusses recent struggles over land and mining, exploring state-society relations conflicts on various scales. In contrast with the existing literature, analyses in this volume deliberately focus on large-scale land use changes both in relation to the expansion of industrial mining and to agro-industry. The authors contend that there are significant parallels between contestations over different variants of resource extractivism, as they reflect the same global trends and processes. Chapters draw on critical theoretical approaches from political ecology, political economy, spatial theory, contentious politics, and the study of democracy. The authors not only provide empirical insights on actual resource struggles from different world regions based on in-depth field research, but also contribute to theory-building by linking concepts from various critical approaches to one another, developing a perspective for analysing struggles over resources related to current global crisis phenomena.

### **Queen Moo's Talisman - Alice Dixon Le Plongeon 1902**

In justice to the author of "Queen Moo's Talisman", it may be recorded that at the time of its writing, there was no intention of allowing the verses to go into print; they were penned only for the one to whom they are dedicated. The songs introduced have been arranged to the metre of the two or three ancient melodies yet occasionally heard among the natives of Yucatan. The one to the rain gods is a versification (set to the tune even now used in a sun-dance) of an old Maya prayer translated from that language by Dr. Le Plongeon and published in his work "Queen Moo and the Egyptian Sphinx." The melody to which the Love Song is set is not Maya. In connection with the lines touching upon love and pain it may be remarked that in the Maya language there is but one word to express both. In this poem are represented as nearly as possible, the religious ideas of the Mayas, their belief in KU, the Supreme Intelligence; in the immortality of the soul, and in successive lives on earth before returning to the great Source whence all emanate; also their rites and ceremonies as gathered from traditions of the natives of Yucatan, the fresco paintings found at Chichen, and the books of ancient Maya

authors.

### **The Innovator's DNA** - Jeff Dyer 2011-07-12

A new classic, cited by leaders and media around the globe as a highly recommended read for anyone interested in innovation. In *The Innovator's DNA*, authors Jeffrey Dyer, Hal Gregersen, and bestselling author Clayton Christensen (*The Innovator's Dilemma*, *The Innovator's Solution*, *How Will You Measure Your Life?*) build on what we know about disruptive innovation to show how individuals can develop the skills necessary to move progressively from idea to impact. By identifying behaviors of the world's best innovators—from leaders at Amazon and Apple to those at Google, Skype, and Virgin Group—the authors outline five discovery skills that distinguish innovative entrepreneurs and executives from ordinary managers: Associating, Questioning, Observing, Networking, and Experimenting. Once you master these competencies (the authors provide a self-assessment for rating your own innovator's DNA), the authors explain how to generate ideas, collaborate to implement them, and build innovation skills throughout the organization to result in a competitive edge. This innovation advantage will translate into a premium in your company's stock price—an innovation premium—which is possible only by building the code for innovation right into your organization's people, processes, and guiding philosophies. Practical and provocative, *The Innovator's DNA* is an essential resource for individuals and teams who want to strengthen their innovative prowess.

### **Steve Marriott** - Paolo Hewitt 2015-09-07

Steve Marriott was one of the music world's most extraordinary individuals, A supremely gifted songwriter, singer and ... schemer. A vocalist from the same mould as Rod Stewart, Eric Burdon and Steve Winwood ... but arguably the greatest white soul singer of them all. Marriott never held back from anything, least of all his music, his vocals always possessed an intensity, clarity and maturity that at the time were unmatched by any other singer. His band The Small Faces were the first to be banned from Top of The Pops and were deported from Australia at gunpoint. Steve's next group Humble Pie ruled the stadiums of America but the money earned was diverted by mafia associates and he returned to the UK broke and on the run from the Taxman. In later life he struggled with schizophrenia but always continued playing - blistering gigs in front of small audiences in the pubs and clubs around London. Recently reunited with his old Humble Pie sparring partner Peter Frampton, he was on the verge of a comeback when he was tragically killed in a housefire, aged 44-years-old. A huge influence on a new

generation of musicians from Paul Weller to Noel Gallagher, due to his death, Marriott has perhaps not been granted the status in Rock 'n' Roll's pantheon that he deserved. A major reassessment is long overdue. Marriott was simply one of the greatest rock stars of all time. "An exhaustive account of the East End musical maverick, it spans his beginnings as a child prodigy, his memorable work with arch top Mods the Small Faces, and all the way through to his later work with Humble Pie, his subsequent solo career and untimely death in 1991." Gary Crowley "A riveting account of the singer's life, crammed with entertaining stories of rebellion and debauchery and insightful historical background... Compulsive reading." The Daily Express "One of the best books I've read about the backwaters of rock music." The Daily Mail "A wonderfully researched, eminently readable appreciation of the creative force behind the Small Faces and Humble Pie, who created some of the finest pop, rock 'n' boogie music of his generation." \*\*\*\* Classic Rock "All Too Beautiful traces Marriott's mercurial career from his upbringing in postwar, bomb-damaged London to his cocaine-ravaged demise in a fire at his Essex home in 1991, aged 44. Revealing... sympathetic, long overdue." \*\*\*\* Uncut "Ultimately, this is a complex story of extraordinary talent, missed chances, exotic highs and frightening lows... This comprehensive biography of Steve Marriott is as close as we're going to get to extracting the truth about Britain's finest white-soul exponent." \*\*\*\* Record Collector "Compelling reading." \*\*\*\* Mojo

*Designing Experiences* - J. Robert Rossman 2019-07-23

In an increasingly experience-driven economy, companies that deliver great experiences thrive, and those that do not die. Yet many organizations face difficulties implementing a vision of delivering experiences beyond the provision of goods and services. Because experience design concepts and approaches are spread across multiple, often disconnected disciplines, there is no book that succinctly explains to students and aspiring professionals how to design them. J. Robert Rossman and Mathew D. Duerden present a comprehensive and accessible introduction to experience design. They synthesize the fundamental theories and methods from multiple disciplines and lay out a process for designing experiences from start to finish. Rossman and Duerden challenge us to reflect on what makes a great experience from the user's perspective. They provide a framework of experience types, explaining people's engagement with products and services and what makes experiences personal and fulfilling. The book presents interdisciplinary research underlying key concepts such as memory, intentionality, and dramatic structure in a down-to-earth style, drawing attention to both the macro and micro levels. *Designing Experiences* features detailed instructions and numerous real-world examples that clarify theoretical principles, making it useful for students and professionals. An invaluable overview of a growing field, the book provides readers with the tools they need to design innovative and indelible experiences and to move their organizations into the experience economy. *Designing Experiences* features a foreword by B. Joseph Pine II.
