Against Jovinianus - St Jerome 2019-01-28

Jovinianus, about whom little more is known than what is to be found in Jerome's treatise, published a Latin treatise outlining several opinions: That a virgin is no better, as such, than a wife in the sight of God. Abstinence from food is no better than a thankful partaking of food. A person baptized with the Spirit as well as with water cannot sin. All sins are equal. There is but one grade of punishment and one of reward in the future state.

Negotiating Culture - Reginald Byron 2006

How are cultural boundaries created, conceived, and experienced? On the public level, the political practices of (sub-)nationalism have been revitalized by contemporary ideologies of multiculturalism providing new rhetorical forms which ultimately deny the legitimacy of indeterminacy. Yet, on the private level, the creation of new intersubjectivities is a normal consequence of movement, mixing, and living together, resulting in novel repertoires of individual and collective experiences. This book seeks to connect both the public and the private within the same frame of analysis. Reginald Byron is professor of sociology and anthropology, University of Wales, Swansea (UK). Ullrich Kockel holds a chair in European Studies at Bristol University of the West of England (UK), where he leads the European Ethnological Research Unit.

Stolen Legacy - George G. M. James 2013-04-08

For centuries the world has been misled about the original source of the Arts and Sciences; for centuries Socrates, Plato and Aristotle have been falsely idolized as models of intellectual greatness; and for centuries the African continent has been called the Dark Continent, because Europe coveted the honor of transmitting to the world, the Arts and Sciences. It is indeed surprising how, for centuries, the Greeks have been praised by the Western World for intellectual accomplishments which belong without a doubt to the Egyptians or the peoples of North Africa.

Albania - Miranda Vickers 2000-03

WITH A NEW POSTSCRIPT Situated between Greece on the south, the former Yugoslavia on the north and east, and the Adriatic Sea on the west, Albania is the country the world forgot. Throughout this century, Albania has been perceived as primitive and isolationist by its neighbors to the west. When the country ended fifty years of communist rule in 1992, few outsiders took interest. Deemed unworthy of membership in the European Union and overlooked by multinational corporations, Albania stands today as one of the poorest and most ignored countries in Europe. Miranda Vickers and James Pettifer take us behind the veil of former President Enver Hoxha's isolationist policies to examine the historic events leading up to Albania's transition to a parliamentary government. Beginning with Hoxha's death in 1985, Albania traces the last decade of Albania's shaky existence, from the anarchy and chaos of the early nineties to the victory of the Democratic Alliance in 1992 and the programs of the current government. The authors provide us with an analysis of how the moral, religious, economic, political and cultural identity of the Albanian people is being redefined, and leave no question that the future of Albania is inextricably linked to the future of the Balkans as a whole. In short, they tell us why Albania matters.

An Historical Introduction to Western Constitutional Law - Caenegem, Raoul Charles Caenegem 1995-03-23
Professor van Caenegem's new book addresses fundamental questions of constitutional organization-- democracy versus autocracy, unitary versus federal organization, pluralism versus intolerance--by analyzing different models of constitutional government through a historical perspective. The approach is chronological: constitutionalism is explained as the result of many centuries of trial and error through a narrative that begins in the early Middle Ages and concludes with contemporary debates, focusing on Europe, the United States, and the Soviet Union.

The Spirit Level - Seamus Heaney 2014-01-13

In *The Spirit Level*, as ever with Seamus Heaney, personal memory and humble domestic objects -- a whitewash brush, a sofa, a swing -- are endowed with talismanic significance, and throughout the collection he addresses his growing concerns, which inevitably include the political situation in his native Northern Ireland, in a poetry that never ceases to be fluid, alert, and completely truthful.

Contemporary Albanian Literature - Arshi Pipa 1991

Few aspects of American military history have been as vigorously debated as Harry Truman's decision to use atomic bombs against Japan. In this carefully crafted volume, Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons, surveys the major debates related to that decision, and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II. Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945. He then provides a historical overview of the events in question, beginning with the decision and program to build the atomic bomb. Detailing the sequence of events leading to Japan's surrender, he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders. Finally, Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents, scholarly books, and articles.

Compendium of Roman History - Velleius Paterculus 1924

Velleius Paterculus lived in the reigns of Augustus and Tiberius (30 BCE-37 CE) and wrote a summary of Roman history from the fall of Troy to 29 CE. In 13-14 CE Augustus wrote an account of his public life, *Res Gestae Divi Augusti*, the best preserved copy of which was engraved on the walls of his temple at Ancyra (Ankara). Velleius Paterculus, who lived in the reigns of Augustus and Tiberius (30 BCE-37 CE), served as a military tribune in Thrace, Macedonia, Greece and Asia Minor, and later, from 4 CE to 12 or 13, as a cavalry officer and legatus in Germany and Pannonia. He was quaestor in 7 CE, praetor in 15. He wrote in two books *Roman Histories*, a summary of Roman history from the fall of Troy to 29 CE. As he approached his own times he becomes much fuller in his treatment, especially between the death of Caesar in 44 BCE and that of Augustus in 14 CE. His work has useful concise essays on Roman colonies and provinces and some effective compressed portrayals of characters. *Res Gestae Divi Augusti*. In his 76th year (13 CE-14) the emperor Augustus wrote a dignified account of his public life and work of which the best preserved copy (with a Greek translation) was engraved by the Galatians on the walls of the temple of Augustus at Ancyra (Ankara). It is a unique document giving short details of his public offices and honours; his benefactions to the empire, to the people, and to the soldiers; and his services as a soldier and as an administrator.

Historical Dictionary of Albania - Robert Elsie 2010-03-19

Albania is not well known by outsiders; it was deliberately closed to the outside world during the communist era. Now it has thankfully become free again, its borders are open and it can be visited, and it is increasingly integrating with the rest of Europe and beyond. Unfortunately, Albania has had its share of problems in the post-communist era; it's a land of destitution and despair, thanks in part to the Albanian mafia, which has turned the country into one of blood-feuds, kalashnikovs, and eternal crises. Yet, Albania is, in essence, a European nation like any other and will soon, it is to be hoped, advance and take its proper place in Europe and the world. The second edition of the *Historical Dictionary of Albania* relates the history of this little-known country through a detailed chronology, an introduction, a bibliography, appendixes, and over 700 cross-referenced dictionary entries on significant persons, places, and events; institutions and organizations; and political, economic, social, cultural, and religious facets.

The Baltic Origins of Homer's Epic Tales - Felice Vinci 2005-12-20

Compelling evidence that the events of Homer's *Iliad* and *Odyssey* took place in the Baltic and not the Mediterranean • Reveals how a climate change forced the migration of a people and their myth to ancient Greece • Identifies the true geographic sites of Troy and Ithaca in the Baltic Sea and Calypso's Isle in the North Atlantic Ocean For years scholars have debated the incongruities in Homer's *Iliad* and *Odyssey*, given that his descriptions are at odds with the geography of the areas he purportedly describes. Inspired by Plutarch's remark that Calypso's Isle was only five days sailing from Britain, Felice Vinci convincingly argues that Homer's epic tales originated not in the Mediterranean, but in the northern Baltic Sea. Using meticulous geographical analysis, Vinci shows that many Homeric places, such as Troy and Ithaca, can still be identified in the geographic landscape of the Baltic. He explains how the dense, foggy weather described by Ulysses befits northern not Mediterranean climes, and how battles lasting through the night would easily have been possible in the long days of the Baltic summer. Vinci's meteorological analysis reveals how a decline of the "climatic optimum" caused the blond seafarers to migrate south to warmer climates, where they rebuilt their original world in the Mediterranean. Through many generations the memory of the heroic age and the feats performed by their ancestors in their lost homeland was preserved and handed down to

the following ages, only later to be codified by Homer in the Iliad and the Odyssey. Felice Vinci offers a key to open many doors that allow us to consider the age-old question of the Indo-European diaspora and the origin of the Greek civilization from a new perspective.

Plato - Plato 2019-10-22

Plato was one of the devoted young followers of Socrates. Plato never speaks in his own voice in his dialogues, and speaks as Socrates. The five dialogues includes the Euthyphro, Apology, Crito, Meno, and Phaedo. Although their popularity has fluctuated over the years, the works have never been without readers since the time they were written.

The First Philosophers - Robin Waterfield 2009-03-26

These first philosophers paved the way for the work of Plato and Aristotle - and hence for the whole of Western thought. This is a unique and invaluable collection of the works of the Presocratics and the Sophists. Waterfield brings together the works of these early thinkers with brilliant new translation and exceptional commentary. This is the ideal anthology for the student of this increasingly appreciated field of classical philosophy.

Muslims and Others in Early Islamic Society - Robert Hoyland 2021-03-24

The interaction between Muslims and the other religious denominations of the Middle East in the period 620-1020 is the subject of this volume. This is arguably the single most important issue in the history of the early Islamic Middle East, since the Muslims were initially a minority in the lands that they had conquered and so had to reach some modus vivendi with the various religious communities in their realm. Fifteen articles by leading scholars shed light on this process from a number of different perspectives: historical, conceptual, legal, social and theological. An introduction both gives an overview and examines possibilities for future research. The period under study is demarcated at one end by the Prophet Muhammed (d. 632) who, as the Qur'an tells us, had to deal with Jews, Christians and polytheists. At the other end lies the great legal/political thinker Manardi (d. ca. 1020), by whose time the Middle East had become substantially Islamicised.
