Democracy, Politics &

Governance - A. Surya

Prakash 2021-11-29

This book is a collection of articles published by the author over a period of time. Much of his writing reflects the social, political and economic issues that have emerged over the years and impacted India's politics and governance. Given his special interest in the working of the constitution, and the march of democracy since independence, the book contains chapters which specifically deal with constitutional issues, the working of parliament, the system of justice, the executive and the media. The author feels that negating the facts of history has been a major pastime of the Nehruvian and Marxist schools and that the distortions introduced by these schools need to be challenged and corrected in the current phase of national politics. This is reflected in his articles which deal with the running secular versus pseudo-secular debate as also the political battles being fought on what is 'national' and what is 'anti-national'. In any case, whatever the issue and however intense

the debate, he is firmly of the view that it must all happen within the parameters of the constitution.

Rooh - Meeting Soul -

We exist. We like. We love. We lose. We grieve. We reflect. We move on. We learn. Finally, we live. Each verse and shayari in my poetic endeavour is a sincere, raw and honest reflection of my life's greatest learning's, purest thoughts, and deepest emotions. Written from my heart (dil se), these poems are seemingly ordinary yet powerful everyday emotions, thoughts and situations that we experience but tend to not necessarily ponder upon as we get preoccupied with the mundane aspects of our lives. Based on a combination of intimate observations of the world and deeply personal experiences of the poet, these poems and shayari's cover a myriad range of topics from approaching life with the right mindset to taking control of our circumstances, to living in the moment, to taking risks to succeed in life, to finding faith,

to experiencing and exhibiting love, compassion, joy ,fear, worry , to dealing with sorrows and failures. Underlying the message throughout the various sections in the book is a heartfelt message of optimism and positivity. Compiling them over a __ of years, the poet wishes for the readers to pause, assimilate and most importantly relate to her thoughts, hoping to enable a community of shared dialogue and interaction. For when all else fails, there are words. And in the end, words will set us free.

Understanding Bollywood -

Ulka Anjaria 2021-03-05

This book offers an introduction to popular Hindi cinema, a genre that has a massive fan base but is often misunderstood by critics, and provides insight on topics of political and social significance. Arguing that Bollywood films are not realist representations of society or expressions of conservative ideology but mediated texts that need to be read for their formulaic and melodramatic qualities and for their pleasurable features like bright

costumes, catchy music, and sophisticated choreography, the book interprets Bollywood films as complex considerations on the state of the nation that push the boundaries of normative gender and sexuality. The book provides a careful account of Bollywood's constitutive components: its moral structure, its different forms of love, its use of song and dance, its visual style, and its embrace of cinephilia. Arguing that these five elements form the core of Bollywood cinema, the book investigates a range of films from 1947 to the present in order to show how films use and innovate formulaic structures to tell a wide range of stories that reflect changing times. The book ends with some considerations on recent changes in Bollywood cinema, suggesting that despite globalization the future of Bollywood remains promising. By presenting Bollywood cinema through an interdisciplinary lens, the book reaches beyond film studies departments and will be useful

Maximum books are write in
English, because English is
very formal language for all
and people think speaking in
English show their
personalities but this is wrong,
as per my thinking it doesn't
matter what you are saying or
what you are not saying.
Speaking in any languages
never show their personalities,
writing a book in any language
is not easy for anyone. In my
way. The book which I am
writing, the language of book,
style of explaining the story,
situation is makes me different.
Coming to my language which I

am creating through this book,
which is very easy to read and
understand for any age group.
In today's life we have many
types of conversation with
people, while messaging and
texting in social-media. That
language which we use
commonly in our day-to day
life, I wrote my book in that
language.
