The Bone Clocks - David Mitchell 2014-09-02

The New York Times bestseller by the author of *Cloud Atlas* • Longlisted for the Man Booker Prize • Named One of the Top Ten Fiction Books of the Year by Time, Entertainment Weekly, and O: The Oprah Magazine • A New York Times Notable Book • An American Library Association Notable Book • Winner of the World Fantasy Award "With *The Bone Clocks*, [David] Mitchell rises to meet and match the legacy of *Cloud Atlas*."—Los Angeles Times Following a terrible fight with her mother over her boyfriend, fifteen-year-old Holly Sykes slams the door on her family and her old life. But Holly is no typical teenage runaway: A sensitive child once contacted by voices she knew only as "the radio people," Holly is a lightning rod for psychic phenomena. Now, as she wanders deeper into the English countryside, visions and coincidences reorder her reality until they assume the aura of a nightmare brought to life. For Holly has caught the attention of a cabal of dangerous mystics—and their enemies. But her lost weekend is merely the prelude to a shocking disappearance that leaves her family irrevocably scarred. This unsolved mystery will echo through every decade of Holly's life, affecting all the people Holly loves—even the ones who are not yet born. A Cambridge scholarship boy grooming himself for wealth and influence, a conflicted father who feels alive only while reporting on the war in Iraq, a middle-aged writer mourning his exile from the bestseller list—all have a part to play in this surreal, invisible war on the margins of our world. From the medieval Swiss Alps to the nineteenth-century Australian bush, from a hotel in Shanghai to a Manhattan townhouse in the near future, their stories come together in moments of everyday grace and extraordinary wonder. Rich with character and realms of possibility, *The Bone Clocks* is a kaleidoscopic novel that begs to be taken apart and put back together by a writer The Washington Post calls "the novelist who's been showing us the future of fiction." An elegant conjurer of interconnected tales, a genre-bending daredevil, and a master prose stylist, David Mitchell has become one of the leading literary voices of his generation. His hypnotic new novel, *The Bone Clocks*, crackles with invention and wit and sheer storytelling pleasure—it is fiction at its most spellbinding. Named to more than 20 year-end best of lists, including NPR • San Francisco Chronicle • The Atlantic • The Guardian • Slate • BuzzFeed "One of the most entertaining and

thrilling novels I've read in a long time."—Meg Wolitzer, NPR "[Mitchell] writes with a furious intensity and slapped-awake vitality, with a delight in language and all the rabbit holes of experience."—The New York Times Book Review "Intensely compelling . . . fantastically witty . . . offers up a rich selection of domestic realism, gothic fantasy and apocalyptic speculation."—The Washington Post "[A] time-traveling, culture-crossing, genre-bending marvel of a novel."—O: The Oprah Magazine "Great fun . . . a tour de force . . . [Mitchell] channels his narrators with vivid expertise."—San Francisco Chronicle

Factfulness - Hans Rosling 2018-04-03

INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." - Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

The work of the British Council 2008-09 - Great Britain: Parliament: House of Commons: Foreign Affairs Committee 2010-02-04

The British Council is the UK's international organisation for educational opportunities and cultural relations. Its purpose is to "build engagement and trust for the UK through the exchange of knowledge and ideas between people worldwide." As well as education, it runs programmes in the arts, science, sport, governance and English language in 110 countries and territories worldwide. 2009 marked the 75th anniversary of the establishment of the Council. It receives Grant-in-Aid from the FCO for its public diplomacy activity: £209 million 2008-09, a 6% increase from 2007-08. The Committee concludes that the change in extent of data provided and the presentation of that data in the British Council's 2008-09 annual report makes it more difficult to track and evaluate the Council's performance over a period of years. In future the annual report should include fuller performance data, including corporate performance scores and reach, to facilitate year-on-year analysis. The recent decline in some of the scores achieved in relation to quality of service, particularly in that relating to engagement with decision makers and senior influencers, gives cause for concern. The Committee welcomes the Council's efforts to re-establish itself in Iran and Zimbabwe, its increased focus on China, and its progress in implementing NAO suggested administrative reforms (HC 625, session 2007-08, ISBN 9780102954173). 2009-10 will be a difficult year for the British Council and further cuts in staff and services may be unavoidable. In these circumstances it is important that the Council concentrates its activities on its core business and key objectives.

Daily Graphic - Yaw Boadu-Ayebofoh 2003-06-03

Inclusive Urban Design: Public Toilets - Clara Greed 2007-06-01

This is a unique text providing both design guidance and policy direction for the provision and design of public toilets covering city-wide, district-level and site-specific principles. It highlights the role of urban design in reversing the trend of inadequate toilet provision, and sets out guidelines for design which meets both user need and provider requirements. Greed presents the fundamental principle that toilets should not be dealt with in isolation from mainstream urban policy, but that they should be seen as a serious core component in both strategic urban policy and local area design. She argues toilets are valuable townscape features in their own right as manifestation civic pride and good urban design - essential architectural components which add to the quality and viability of an area. Although a range of design guidance on toilets exists there is still considerable dissatisfaction with the end product in terms of building design, levels of provision, location, safety, layout, DDA requirements and accessibility. By outlining user demands and provider constraints, Greed shows that it is essential for architects to have an informed understanding and practical knowledge of toilet issues when working with public and private sector providers. Examples of toilet architecture from other countries, and policies from different cultural settings, are included for comparative purposes to invigorate UK perspectives.

Assessing Young Learners of English: Global and Local Perspectives - Marianne Nikolov 2015-10-29

This volume documents international, national, and small-scale testing and assessment projects of English language education for young learners, across a range of educational contexts. It covers three main areas: age-appropriate 'can do statements' and task types for teaching and testing learners between the ages of 6 to 13; innovative approaches to self-assessment, diagnostic testing, self-perception, and computer-based testing; and findings on how young learners perform on vocabulary, listening, speaking, pronunciation, and reading comprehension tests in European and Asian contexts. Early language learning has become a major trend in English language education around the globe. As a result of the spread of teaching English to a growing number of young children, assessment of and for learning have emerged as key issues. In line with this development, there is a clear and emerging need to make early language programs accountable and to assess both the progress children make over time and to quantify their achievement at various stages of development. This volume informs stakeholders about the realistic goals of early language learning, their efficiency, and how much progress children make over time.

The British Council - Great Britain. National Audit Office 2008

The British Council has been flexible in moving its attention and resources to match new UK priorities, particularly in the Islamic World and the Far East. It continues to implement numerous and extensive internal changes aimed at increasing its effectiveness and efficiency, though delivery of projects and change has been uneven across its global network. The Council's approach to measuring its performance is well developed. Its scorecard shows positive results across most aspects of activity, including audience sizes, customer satisfaction scores, and the perceptions of stakeholders and partners. The Council increasingly depends on contributions from external partners and commercial sponsors, to expand its activities and impacts. This will mean reversing the downward trend in sponsorship and other contributions of the last six years. The Council has recognised the importance of good customer service, but it is not yet meeting the standards it sets for itself across the whole network. It also needs to implement a customer database to enable it to track customer contacts and better understand its audiences. The British Council's £181 million English language teaching and examinations business has a strong reputation and more than covers its costs. The teaching operation also supports UK public diplomacy, notably by helping overseas governments expand the teaching of English in their schools and colleges. But the teaching business has a high cost base, charges premium prices, and has limited reach outside overseas capital cities. Although there has been an increase in the numbers of students taught, the network of teaching centres has contracted in recent years. To continue to grow the business, the Council will need to put into action its ideas about alternative lower-cost ways to deliver good quality teaching.
