Testi brevi di accompagnamento.

Linguistica, semiotica, traduzione - Donella Antelmi 2019-04-15

La brevitás non è certo una invenzione recente. Incisioni e graffiti, fin da tempi remoti, rappresentano forme espressive concise, lapidarie, affidate a supporti che, per loro natura, non lasciano spazio a messaggi di ampio

respiro: pietra, muro, manufatti. Tuttavia, la brevità non coincide necessariamente con la (poca) lunghezza: essa ha, al contrario, una propria retorica, stilistica e poetica, poiché riguarda le caratteristiche di una scrittura che tende a una concisione formale ottenuta attraverso specifici fattori di condensazione, sintesi ed economia. Di conseguenza, a dispetto della - o grazie alla - concisione, le forme brevi rappresentano unità di informazione ad alto contenuto. L'estetica del corto è insomma caratterizzata da una ricercata densità semantica, per cui la brevità "non è un ripiego, bensì un punto di forza" (A. Abruzzese) grazie alla sua intensità comunicativa. I contributi del libro prendono in considerazione la brevitās nell'interazione tra modi semiotici differenti (linguaggio, immagini, simboli, oggetti, voce) in ambiti di varia natura: espografica, giornalismo, pubblicità, cinema, traduzione, interpretazione. Wildlife Photographer - Chris Gomersall

2012-01-03

As nature photography has shifted decisively towards digital in recent years, much has been written offering guidance and tips on technical matters, but there has been little published on the creative aspects. European Wildlife Photographer of the Year Chris Gomersall

addresses this gap in a fresh and accessible guide, which takes account of developments in photography without dwelling on technical details. Ten thematic chapters on subjects such as Space, Light, Time and Developing a Narrative are generously packed with examples, advice and suggestions for projects and exercises. The second part of the book consists of sixteen case studies, where Gomersall describes how he achieved some of his most outstanding images. The large new audience for a guide such as this is evidenced in the growth of ecotourism and the uptake of digital cameras with excellent zoom facilities in recent years. The field has opened up to many more people as cameras are now largely automated and foolproof. The book will serve as an inspiration to relative newcomers, as well as to more accomplished photographers who are technically assured but are looking to extend their creativity, to try fresh approaches and to learn from one of the masters.

The COVID-19 Catastrophe - Richard Horton
2020-07-13

The global response to the COVID-19 pandemic is the greatest science policy failure in a generation. We knew this was coming. Warnings

about the threat of a new pandemic have been made repeatedly since the 1980s and it was clear in January that a dangerous new virus was causing a devastating human tragedy in China. And yet the world ignored the warnings. Why? In this short and hard-hitting book, Richard Horton, editor of the medical journal *The Lancet*, scrutinizes the actions that governments around the world took - and failed to take - as the virus spread from its origins in Wuhan to the global pandemic that it is today. He shows that many Western governments and their scientific advisors made assumptions about the virus and its lethality that turned out to be mistaken. Valuable time was lost while the virus spread unchecked, leaving health systems unprepared for the avalanche of infections that followed. Drawing on his own scientific and medical expertise, Horton outlines the measures that need to be put in place, at both national and international levels, to prevent this kind of catastrophe from happening again. Were

supposed to be living in an era where human beings have become the dominant influence on the environment, but COVID-19 has revealed the fragility of our societies and the speed with

which our systems can come crashing down. We need to learn the lessons of this pandemic and we need to learn them fast because the next pandemic may arrive sooner than we think.
