**Livres hebdo** - 1997

**Linguistics and the Study of Comics** - Frank Bramlett 2012-05-09

Do Irish superheroes actually sound Irish? Why are Gary Larson's Far Side cartoons funny? How do political cartoonists in India, Turkey, and the US get their point across? What is the impact of English on comics written in other languages? These questions and many more are answered in this volume, which brings together the two fields of comics research and linguistics to produce groundbreaking scholarship. With an international cast of contributors, the book offers novel insights into the role of language in comics, graphic novels, and single-panel cartoons, analyzing the intersections between the visual and the verbal. Contributions examine the relationship between cognitive linguistics and visual elements as well as interrogate the controversial claim about the status of comics as a language. The book argues that comics tell us a great deal about the sociocultural realities of language, exploring what code switching, language contact, dialect, and linguistic variation can tell us about identity - from the imagined and stereotyped to the political and real.

**The Sculptor** - Scott McCloud 2015-02-03

David Smith is giving his life for his art—literally. Thanks to a deal with Death, the young sculptor gets his childhood wish: to sculpt anything he can imagine with his bare hands. But now that he only has 200 days to live, deciding what to create is harder than he thought, and discovering the love of his life at the 11th hour isn't making it any easier! This is a story of desire taken to the edge of reason and beyond; of the frantic, clumsy dance steps of young love; and a gorgeous, street-level portrait of the world's greatest city. It's about the small, warm, human moments of everyday life...and the great surging forces that lie just under the surface. Scott McCloud wrote the book on how comics work; now he vaults into great fiction with a breathtaking, funny, and unforgettable new work.

**The Case of the Bizarre Bouquets: Enola Holmes 3** - Nancy Springer  
2019-02-04

Everyone knows Dr. Watson is Sherlock Holmes' right-hand man - so when he goes missing, it's a shock. Even Sherlock hasn't the slightest clue as to where he could be. Enola is intrigued but wary; she's still hiding from her older brothers, and getting involved could prove to be disastrous. But Enola can't help but investigate, especially when she learns that a bizarre bouquet - with flowers all symbolizing death - has been delivered to the Watson residence. Enola knows she must act quickly, but can she find Dr. Watson in time?

**Omni-Visibilis** - Trondheim 2021-03-24T00:00:00+01:00

Hervé's awkward, irritating, and maybe a bit OCD, but in the end, he's a normal guy. He has a job, his buddies, a girlfriend, and a mother who keeps close tabs on him. One particular day starts out just like any other, but on his way to work, he quickly realizes that things are anything but normal. Every person he crosses paths with not only seems to know him, but sees what he sees, and hears what he hears. And he soon discovers that everyone else on Earth is connected with him too. So begins a day unlike any other, with Hervé cast out of anonymity and into a nightmare

of confusion and danger.

**Just After the Wave** - Sandrine Collette 2020-01-14

Surviving the environmental apocalypse has its own consequences in this novel of "tense, tightly controlled, and genuinely devastating prose" (Kirkus Reviews, starred review). When a volcano collapses in the ocean and generates a tidal wave of biblical proportions, the world disappears around Louie, his parents and his eight siblings. Their house, perched on what was once the top of a hill, now stands on a tiny island. As far as the eye can see there is only silver water. Their survival is nothing short of miraculous. But with that miracle come devastating new dilemmas. The vast waters around them are routinely shaken by violent storms, like jolts of rage. As the waters continue to rise. Higher ground must be found, and calculations must be made: How much longer until their little island is gone? How far is the next refuge? And how many members of the family can fit in their tiny rowboat? From the acclaimed author of Nothing But Dust comes "a breathtaking novel that tells a tale of resilience, love, and all the invisible but powerful ties that bind a family together" (France Bleu).

French books in print, anglais - Electre 2002

**Notes on the Surgery of the War in the Crimea** - George Husband Baird Macleod 1858

"First edition containing a record of the author's extensive experiences in the Crimean War during which he served as chief surgeon to the British army. Macleod was present at Smyrna and Sebastopol, and he describes the high mortality rates for all of the standard operations. He recommended amputation despite the likelihood of unfavorable outcome (for excision of the hip joint the mortality was one hundred percent), since delay led to even greater loss of life. The war in the Crimea, according to the author, 'added little to our medical knowledge. Its short duration prevented this; yet it has shown us wounds of a severity, perhaps, never before equalled' (p. vii). A Philadelphia edition for use by Union surgeons during the Civil War was published in 1862. An edition for use by Confederate surgeons was published in 1862 in Richmond."--Antiquarian bookseller's description.

**Trésors de la bande dessinée** - 1991

**Alamo** - Garth Ennis 2001

In this final volume, the story comes to an explosive climax. As the net closes around Jesse Custer, so the renegade Preacher embarks on his own endgame, a terrifying strategy that will place him between Starr, Cassidy and the implacable Saint of Killers and lead to a showdown with God himself.

The Case for a Debt Jubilee - Richard Vague 2021-09-21

We were drowning in record levels of debt before the COVID-19 crisis, and we are now deluged in it. U.S. private-sector loans have tripled relative to income since 1950 - and government debt is also at an all-time high. Soaring debt burdens individuals, stifles growth, compounds inequality, and brings falling living standards for millions. Richard Vague's new book argues that, contrary to mainstream assumptions, we cannot simply hope that the trend will correct itself. Mounting debt is a feature of our economic system, not a bug: debts perpetually grow and compound, polarizing and impoverishing economies if not overtly dealt with. He offers a detailed plan for how we can restructure a range of debts - such as student loans, auto loans, medical debt and more - and offer hard-pressed debtors a 'jubilee' now, not in some utopian future. Vague's bold polemic contains a wealth of ideas that will free millions from modern-day debt peonage, reduce inequality and bring new vigor to the economy as it struggles to emerge from the pandemic.

History and Politics in French Language Comics and Graphic Novels -

Mark McKinney 2008

With Essays by Baru, Bart Beaty, Cécile Vernier Danehy, Hugo Frey, Pascal Lefèvre, Fabrice Leroy, Amanda Macdonald, Mark McKinney, Ann Miller, and Clare Tufts In Belgium, France, Switzerland, and other French-speaking countries, many well-known comics artists have focused their attention on historical and political events. In works ranging from comic books and graphic novels to newspaper strips, cartoonists have addressed such controversial topics as French and Belgian collaboration and resistance during World War II, European colonialism and U.S. imperialism, anti-Semitism in France, the integration of African immigrant groups in Europe, and the green and feminist movements. History and Politics in French-Language Comics and Graphic Novels collects new essays that address comics from a variety of viewpoints, including a piece from practicing artist Baru. The explorations range from discussion of such canonical works as Hergé's Tintin series to such contemporary expressions as Baru's Road to America (2002), about the Algerian War. Included are close readings of specific comics series and graphic novels, such as Cécile Vernier Danehy's examination of Cosey's Saigon Hanoi, about remembering the Vietnam War. Other writers use theoretical lenses as a means of critiquing a broad range of comics, such as Bart Beaty's Bourdieu-inspired reading of today's comics field, and Amanda Macdonald's analysis of bandes dessinées (French comic books) in New Caledonia during the 1990s. The anthology establishes the French-language comics tradition as one rich with representations of history and politics and is one of the first English-language collections to explore the subject.

Cubitus - tome 9 - L'école des chiens - Erroc 2014-01-24T00:00:00+01:00  
Fatigué de voir Cubitus se comporter comme un être humain, Sémaphore l'envoie à l'Ecole des Chiens pour réapprendre à être un animal. Mais certaines causes sont perdues d'avance...

Learn and retain all the key phrases you need to know, and perfect your pronunciation with audio help.

**Catalogue annuel de la librairie française** - Daniel Jordell 1898

*Trepanation, Trephining and Craniotomy* - José M González-Darder 2019-09-04

This book takes readers on a journey around the world and through time, accompanied by a modern neurosurgeon who reviews historical techniques and instruments used for cranial opening. The author draws on original medical and surgical books to provide a comprehensive history of these techniques and tools. To complement the general overview and offer readers a more 'hands-on' sense of context and atmosphere, extensive historical references, stories, media news and illustrative cases have been included for each historical and geographical scenario. In addition, original illustrations and plates of these archaic instruments and techniques are supplied. Neurosurgical surgeons, nurses, technicians, medical historiographers, paleo-pathologists and researchers interested in surgical techniques for cranial opening will find the volume a valuable guide, intended to increase the historical and cultural awareness of this core topic in neurological surgery.

*The Case of Alan Turing* - Eric Liberge 2016-10-03

Alan Turing, subject of the Oscar-winning 2014 film *The Imitation Game*, was the brilliant mathematician solicited by the British government to help decipher messages sent by Germany's Enigma machines during World War II. The work of Turing and his colleagues at Hut 8 created what became known as the "bombe" which descrambled the German navy's messages and saved countless lives and millions in British goods and merchandise. Despite his heroics, however, Turing led a secret life as a homosexual; haunted by the accidental death of a young love, he got briefly engaged to Joan Clarke, a fellow cryptanalyst, until he told her the truth. After a young man with whom he was involved stole money from him, he went to the police, where he confessed his homosexuality; he was charged with gross indecency, and only avoided prison after agreeing to

undergo chemical castration. Tragically, he committed suicide two years later, by ingesting cyanide through a poisoned apple. The particulars of Turing's achievements were only made known in 2012, following the release of once-classified papers. Authors Liberge and Delalande used this information to create a biography that is scientifically rigorous yet understandable for the lay reader. It's also a meticulous depiction of World War II, and an intimate portrayal of a gay man living in an intolerant world. Delving deeper into Turing's life than *The Imitation Game*, this graphic novel is a fascinating portrait of this brilliant, complicated, and troubled man.

**Bibliographie de Belgique** - 1997

Vols. for 1959- include : Fascicule spécial: Liste annuelle des publications d'auteurs belges à l'étranger et des publications étrangères relatives à la Belgique acquises par la Bibliothèque royale de Belgique.

They discover when they come out of their refuge that the hill they are on is surrounded by rising water. On this new island', they befriend a wounded moose threatened by a merciless predator.'

Batman: The Dark Prince Charming - Enrico Marini 2021-07-20

A young mother and her daughter appear on Bruce Wayne's doorstep, and the famously wealthy playboy is rocked by the news that they bring. When the child is suddenly kidnapped by The Joker, Batman must plunge deep into Gotham City's underworld to track her down and foil the Clown Prince of Crime's twisted plan. But what is the secret that connects these archetypal antagonists to this mysterious young girl, and why does her case seem so deeply personal to both of them? Acclaimed European comics creator Enrico Marini (*The Eagles of Rome*, *The Scorpion*, *Gipsy*) made his American comics debut with this stunning graphic novel showcasing his unique interpretations of Gotham City's most famous heroes and villains. Collecting the lushly painted two-volume original series, this new trade paperback edition collects *Batman: The Dark Prince Charming* #1-2.

His Name Was Ptirou His Name Was Ptirou - Yves Sente

2018-04-18T00:00:00+02:00

The best part of Christmas is getting to hear one of Uncle Paul's stories. This year, Uncle Paul treats the kids—and us—to the story of the real-life boy who inspired the beloved *Spirou*. It's 1929. Ptirou is a circus acrobat who, while the world's economy is crashing, sees his own world fall apart. Orphaned, and possessing only his skill, a bottle of perfume, and an inherited dream, Ptirou sets out for New York and new adventures. With saboteurs on one side, the lovely Juliette on the other, and his own knack for mischief, Ptirou finds adventure aboard an ocean liner before it's even left port.

Les trois fantômes de Tesla - tome 2 - La Conjuración des humains véritables - Richard Marazano 2018-05-25T00:00:00+02:00

"Rumeurs de débarquement de sous-marins allemands sur la côte est... Mystérieuses apparitions, et disparitions, sur les bords de l'East River... Mise sous tutelle des laboratoires d'Edison par le FBI... Expérimentations de terribles armes secrètes par les forces japonaises dans le Pacifique... Pour celui qui sait voir au-delà des apparences de calme trompeur, tout démontre que New York sera bientôt plongée au coeur des événements qui ravagent aujourd'hui le reste du monde... Et nous sommes toujours sans nouvelles de Nikola Tesla, probablement le seul savant dont l'originalité et les inventions géniales sont susceptibles de nous fournir une aide décisive dans cette guerre destructrice ! New York, un été 1942... Une enquête de T.S. Billing, notre reporter du Daily Worker Au même moment, le jeune Travis emménage avec sa mère dans un hôtel meublé de Manhattan. Il ne sait pas encore que son énigmatique voisin

de palier va l'entraîner dans une aventure aux ramifications scientifiques terribles et galvanisantes...

Arctic Nation - Juan Díaz Canales 2004

His name is John Blacksad. He's a private detective who's seen much evil in the past, but never in his long life has he encountered a case as bizarre, as twisted, or as deadly as the one he accepts now. In a town where white supremacists have moved in and are brutally seizing control, Blacksad is asked to find a kidnapped child and bring the kidnapers to justice. As he gets deeper into his investigation, Blacksad discovers a tale of sickening horror involving murder and worse that condemns some of the town's most powerful citizens.
